SANJIN
Elevator Air Conditioner

Waterless air conditioner specially designed for car roof

Product Features

Waterless treatment design

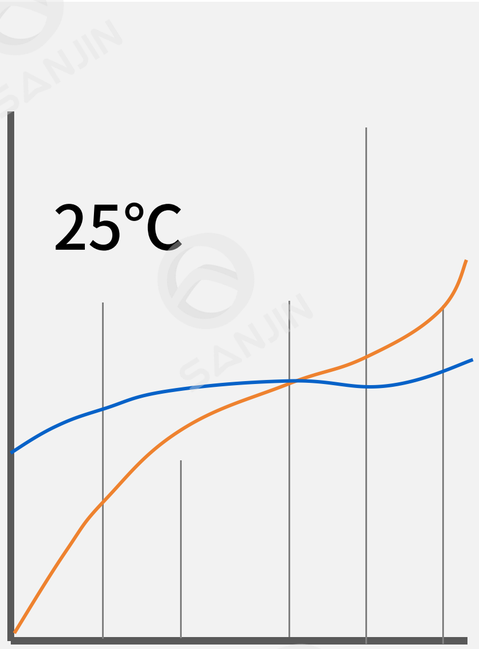
The condensate water treatment system and multiple gasification treatments can effectively prevent water overflow and solve customer concerns.

Large air volume

The 10mm condensing copper tube is far superior to similar products, with uniform air supply, sufficient cooling capacity, and an air output of 3500W.

Low noise

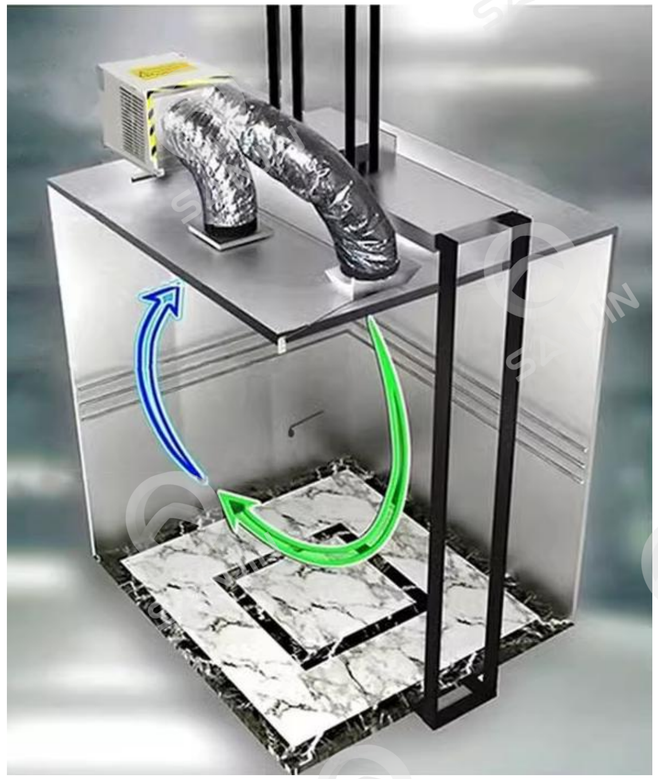
Special international famous brand compressor (Panasonic), efficient operation and low noise.



Constant temperature variable frequency

Advanced heat exchanger manufacturing technology, rapid refrigeration, automatic constant temperature, energy saving and environmental protection.

Product Features



Easy to install

The machine body adopts an integrated design, specially designed for the car roof, and is installed with tie rods, making it easy to operate, safe and reliable.

Source manufacturer

Source manufacturer, quality assurance, better price.

Run smoothly

CCC certification, stable operation, and 2-year warranty.

Meet national standard requirements

Special design for elevators, meeting the national standard requirements of GB-7588-2003.

Certified Product

- CCC certification
- Safety type test report
- Electromagnetic compatibility type test report
