200W LED Three-in-One Beam Light

VD-BS851

Functional description:

1. Lamp: 200W LED white light module
2. Control Methods: 18 channels, DMX512 signal input, sound control, automatic operation
3. X/Y Scan: Horizontal: 540°, Vertical: 270°
4.Colors: 9 dichroic colors + white, rainbow effect, with independent color selection and positioning
5.Gobos: 7 replaceable glass/steel gobos with gobo rotation and gobo flow effects
6.Fixed Gobos: 10 fixed gobos (including steel patterns) + open white, with gobo shake and forward/reverse gobo spin effects
7. Dimming: 0-100% linear dimming
8. Strobing: 0–25 Hz/s, synchronous pulse strobing, random pulse strobing, etc.
9. Effect wheel: 4 Prisms with Forward/Reverse Rotation Effect
10. Display: LCD display, Chinese and English display, with invertable display

Technical specifications:

Model	VD-BS851
Lamp	200W LED White Light Module
Maximum Power	350W
voltage	AC100V-240V, 50/60Hz
Color temperature	7500K
LED lifespan	50000 hours
Spot angle	7-21°
Control Method	18-channel, DMX512 signal input, sound control, auto-run
Dimming	0-100% linear dimming
Strobe	0-25Hz/s
Effects Console	4 prisms
Product Dimensions	343×232×537mm
Package Dimensions	460 × 460 × 580 mm (1 unit/package)
Net Weight	15kg
Gross weight	18kg
