Camera [USB Port + Pickup + Speaker]

VY-MX2030

Functional description:

1. New-generation AI sound positioning and learning technology
2. Adopts Intelligent Noise Block AI technology
3. Equipped with a high-quality SONY 1/2.7" CMOS sensor, featuring true color reproduction, low noise and high-quality video streaming
4. Plug and play, compatible with all your favorite applications and platforms
5. Single USB cable design supporting power supply, video, audio and communication transmission
6. Integrated with ANR, AES and AG sound processing technologies with a high sensitivity of up to 110dB
7. Driver-free for easy and rapid deployment of enterprise-level video conferences
8. Support independent use as a web camera or an audio device
9. Compact and portable structural design with IP64 industrial protection (dust and water resistance)
10. Compatible with Windows® 7/8/8.1/10, Mac OS® X 10.7 or higher, Google Chromebook Version 29.0.1547.70, Android 5 and Linux systems

Technical specifications:

Model	VY-MX2030
ImageSensor	1/2.7" High-Quality CMOS Sensor
Horizontal Viewing Angle	110°
Microphone	4-Unit Array
Sensitivity	110dB
Waterproof Rating	IP64
Image Quality	1080P @30fps
