Chairman Microphone [Gooseneck Mic Square Screen]/Delegate Microphone [Gooseneck Mic Square Screen]

VM-2204C / VM-2204D

Functional description:

1.3.5-inch square touchscreen with timer function, time display, and tea service request capability.

2. Dual-color indicator light design: red indicates speaking, green indicates requesting to speak.

3. Support for multiple chairs to be online simultaneously;

4. Enable video tracking functionality in conjunction with the host system;

5. When paired with the host, it supports First-In-First-Out (FIFO), Last-In-First-Out (LIFO), Restricted Mode, Chair Permission Mode, and Free Discussion Mode.

6. Microphone roles can be customized through the host settings, allowing seamless switching between Delegate, Chairperson, and VIP modes for enhanced flexibility and premium functionality.

7. "Linear Hand-in-Hand" connection for easier system integration

8. The chairperson's microphone features a priority button that can mute the delegate unit currently speaking.

9. Featuring a unique self-diagnostic function, this device automatically performs self-checks when paired with the software, simplifying pre-meeting preparation and ensuring reliable operation during conferences.

10. The microphone supports dual backup functionality for both digital and analog audio.

Technical specifications:

Screen Resolution	320*240
Screen size	3.5寸
Frequency response	20-20,000Hz
Sensitivity	-36dB
Output impedance	< 200 ohms
Maximum Sound Pressure Level	136dB (1% THD @ 1kHz, 0dB SPL = 2x10Pa)
Equivalent noise level	16 dB, A-weighted
Power supply	24VDC
Weight	0.8Kg
Mic Rod Length	380 (mm)
Base (Length x Width x Height)	107.5 x 145.9 x 50.8 (mm)
