

AVILA

---

CLASSICAL GUITAR

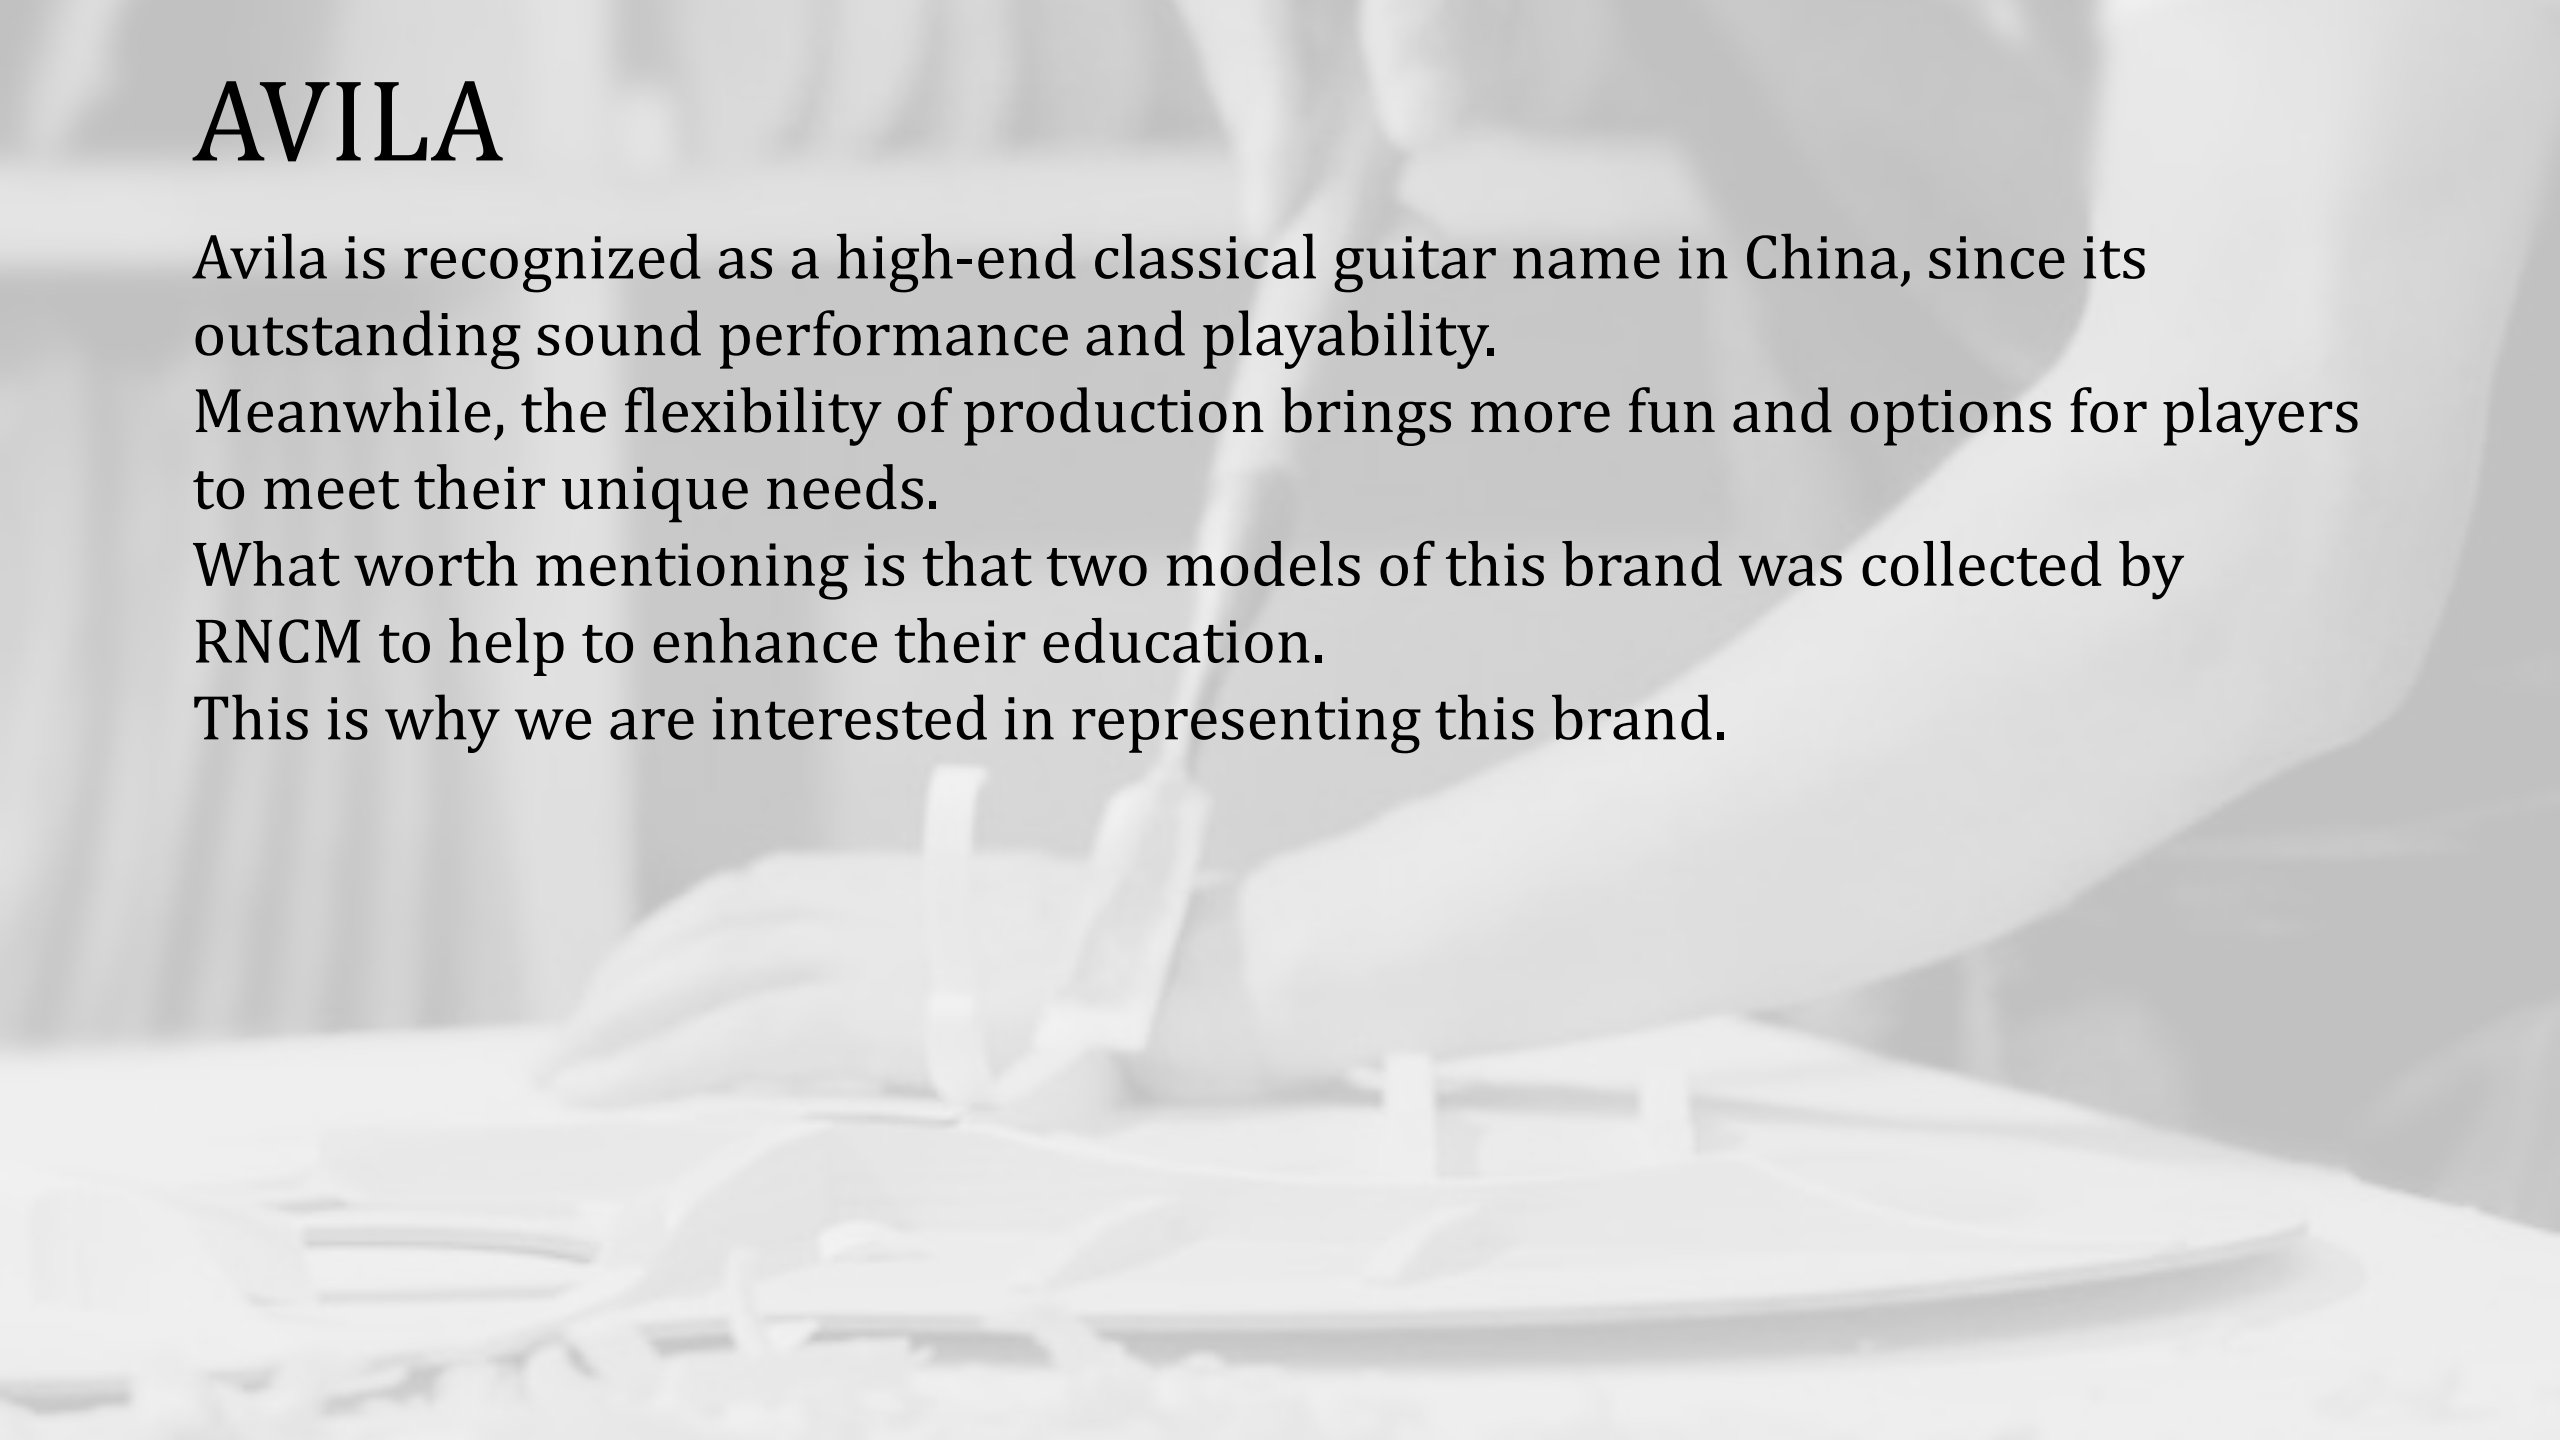

# AVILA

Avila is recognized as a high-end classical guitar name in China, since its outstanding sound performance and playability.

Meanwhile, the flexibility of production brings more fun and options for players to meet their unique needs.

What worth mentioning is that two models of this brand was collected by RNCM to help to enhance their education.

This is why we are interested in representing this brand.

- Fine finishing;
- Outstanding playability for both beginners and professionals

# Boya Meets Avila

To represent classical brand, Boya is committed to focus on specifics such as finishing, durability and sound performance. That means, to present only good classical guitars.

Occasionally, Boya has met Avila during the exhibition. It was the sound of the guitar that has made a great impression. Then, after the inspection of every aspect of the building technology, Boya decided to introduce the brand to all over the world.

With strong capability and experience in classical guitar building, no matter if it is a solid top classical guitar or an all-solid classical guitar, the quality is excellent. Besides, equipped with electric system, gives players more chances to have wonderful experiences of Chinese brand.

Please feel free to contact us for your needs.
