独家发明技术：V形底，袋面无痕工艺
Exclusive Invention Technology: V Bottom, Bag Surface Traceless Craft

臻品系列生产工艺与奢侈品纸袋“V”形底工艺同步，突破技术壁垒，颠覆传统半自动制袋机与手工结合的纸袋生产工艺，制袋全工艺一机完成，实现千袋品质如一的标准，为垂直链用户提供保障。
可定制整机智能全伺服（E型号）、自动放底卡功能，可选配穿绳功能。
本机为您打造与高奢工艺同步的纸袋品质，是您的不二臻选。

The V series can achieve bag craft synchronized with luxury paper bag V-bottom craft, break through technical barriers, and subvert the traditional process of that semi-auto paper bag making machine and manual combination, this machine can realize that one sheet paper feeding till the finished bag output, to achieve the quality of thousands of bags as the same standard for the vertical chain of users to provide protection.
This entire machine can be customized with intelligent full servo (E model), bottom card auto-putting. Rope inserting is an optional function.
This machine is an excellent solution for producing high-quality paper bags with luxurious artistry.
