Tracked lawn mower

Product Description

This mower is specially designed for orchards, vineyards, mountainous areas, hills, and narrow spaces. It is compact, lightweight, and stable on tracks, making it easy to operate. Both the travel and blade shaft clutches use a safe and convenient tension wheel design. Equipped with an advanced high-power diesel engine, it features direct power transmission, reducing losses for safe and efficient weeding operations.

Product Features

- 1 Tension Clutch Gear Shift: Three forward speeds and one reverse speed, easy to operate.
- 2 Flexible Adjustment: The main handle can be adjusted according to height and field requirements, ensuring no residual tillage and enhancing comfort.
- 3 Easily Adjustable Depth Limiting Wheel: Simple and convenient height adjustment by rotating the handle screw.

Product Parameters

Project name	unit	Details
Overall dimensions	mm	1800*1080*1140
Cutting width	cm	85
Cutting height	cm	3-5
Overall machine weight	kg	298
Supporting power	kw	6.6
Structural form	/	Throwing knife
Number of tool holders	Group	22*3
Number of blades	/	66 (44 curved, 22 straight)
Steering gear form	/	Engaging sleeve type
Gear position	/	Three speeds forward, one speed reverse
