

## Industrial Rugged Tablet

# SIN-I1083E

### Main feature

Onboard Intel chemy  
trail Z8350 processor

2G/4G (optional  
LPDDR3 memory

1\*USB2.0  
1\*Micro USB

SupportWIFI/3G/  
4G  
Bluetooth

Optional  
modules NFC/1D  
code/2D code

OptionalGPS ,  
OZSS, glonass

10.1-inch IPS  
Multi-point  
capacitive screen

IP65 protection level

## Specific parameters

|                                       |                                                                                                                                                                               |
|---------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Display screen                        | 10.1inch 16:10 IPS screen, resolution 800*1280                                                                                                                                |
| Touch screen                          | Multi-point capacitive screen (up to 10 points), G+G                                                                                                                          |
| Camera                                | Front 2.0MP (with working indicator light) + rear 5.0MF                                                                                                                       |
| CPU                                   | Onboard Intel Cherry Trail Z8350 processor                                                                                                                                    |
| Memory                                | Onboard 2G/4G DDR3L memory (optional)                                                                                                                                         |
| Store                                 | 32G/64G/128G hard disk (optional)                                                                                                                                             |
| USB                                   | 1*Micro USB, 1*USB2.0                                                                                                                                                         |
| Battery performance                   | Capacity 3.7V/8000mAh built-in polymer lithium-ion battery                                                                                                                    |
| Endurance time                        | About 8 hours (default 50% volume, default 200 lumens brightness, playing 1080P HD video)                                                                                     |
| I/O interface                         | 1*Micro USB,1*USB2.0,1*SIM card holder,1*TF memory card holder supports 128G,1*HDMI port,1*12Pins Pogo Pin (optional),1*3.5mm standard headphone jack,1*3.5mm DC IN interface |
| Data communication<br>Optional module | WIFI1, Bluetooth,Optional 3G/4G/GPS/QZSS/glonass/NFC/1D/2D code                                                                                                               |
| Adapter                               | AC100V~240V、50Hz/60Hz OutputDC 5V/3A                                                                                                                                          |
| Temperature                           | Operating temperature: -10°C~+50°C, Storage temperature: -20°C~+60°C                                                                                                          |
| Apparent dimension                    | 275.5*187.5*22mm(Width*Depth*Height)                                                                                                                                          |
| key                                   | 1*power button, 1*volume up/down button, 1*custom button                                                                                                                      |
| Support system                        | windows 10                                                                                                                                                                    |
| Product certification                 | IP65、MIL-STD-810G、1.22m drop resistance                                                                                                                                       |
| Optional accessories                  | Charging base, strap, car mount                                                                                                                                               |
