

1, After the download is complete, unzip the file and run **Aiosys.exe**.

2, After the window pops up, wait a few seconds. The system will automatically launch your browser and open the AIOSYS website. Please be patient and allow all components to finish loading

3, You can change the language on the pop-up page, or by visiting <http://127.0.0.1:18989>, and selecting the language option in the upper-right corner.

4, Enter the account: **test**  
and password: **test**  
to log in and start using the system normally.
