

**Item name:** DS001L QC3.0 USB and PD 45W car charger

**Short description:**

DS001L is QC3.0 USB and PD 45W car charger with Voltmeter aluminum alloy used for bus,marine,boats,etc

- 1.High quality dual USB charger, DC 12-24 volt input, DC 5V 4.2A output for fast charging phones, tablets, GPS and other devices
- 2.Easy installation, universal for boat marine, RV,ATV, UTV, golf cart, tractor or anywhere else can be thought.
- 3.Waterproof rubber cover: Fitting tight and protecting the USB ports from water and dust when not in use
- 4.Aircraft grade aluminum with premium heat transfer capability for stable power output

**DS001L is QC3.0 USB and PD 45W car charger with Voltmeter aluminum alloy used for bus,marine,boats,etc**

**Specification:**

1 QC USB socket, 45w PD port, voltmeter

Color: Blue

Material: Aluminum

Input: DC 12/24V Output: DC 5V 4.2A

Equipped with a QC3.0 USB socket, this power socket delivers high-speed charging for compatible devices, ensuring that you can power up your gadgets in no time. The PD 45W feature further enhances its capabilities, allowing for rapid and efficient charging of devices that support Power Delivery technology. With an output voltage of 12-24V and output current of QC3.0, this socket provides a reliable and consistent power supply for your devices.

In addition to its impressive charging capabilities, this power socket is also designed to withstand the rigors of marine and automotive environments. Its IP65 waterproof rating ensures that it can withstand exposure to water and dust, making it ideal for use in ships, cars, and boats. This durability and resilience make it a reliable choice for outdoor and marine applications.

Furthermore, the sleek and modern design of this power socket adds a touch of sophistication to any environment. The metallic luster not only enhances its aesthetic appeal but also makes it more in line with public aesthetics, ensuring that it complements the look and feel of its surroundings.

Product Name	QC3.0 USB and PD 45W car charger
Input Voltage	12V-24V
Output Voltage	5V-12V

Output Current	4.2A
Operating Temperature	-25°C ~+60°C
Material	Red Aluminum
Terminal type	2 Pin Terminals
Order confirm	* What LED Color?
What You Got	QC3.0 USB&45W PD,nut,
