

DS003M motorcycle Din dual QC3.0 USB -A charger

DS003M-Waterproof aluminium motorcycle Din dual QC3.0 USB -A charger with LED voltmeter and button switch

- 1、 Two 18W / 3A QC3.0 fast charging ports and 4x faster than conventional chargers.
- 2、 The waterproof and dust-proof cover is removable and can be used in even the harshest environments.
- 3、 Work with all 12V-24V vehicles, such as marine, ATV, motorcycle, car, truck, golf cart, RV, boat, SUV, and more.
- 4、 QC3.0*2+V with switch
- 5、 Built-in Smart IC, outputs stable current without fluctuation. Intelligent circuit design protects against over-current, over-charging, over-heating and high temperature.

DS003M-Waterproof aluminium motorcycle Din dual QC3.0 USB -A charger with LED voltmeter and button switch

Compact USB car charger with 2 USB ports, 12V Outlet is made of advanced aluminum alloy material, which is sturdier than traditional plastic models, with better texture and better high temperature resistance.

Product description

Input voltage: 12V-24V \pm 4.0V

USB (output) voltage: 5V \pm 0.25V
Output Current: 5V 3A; 9V 2A ;12V 1.5V
Rapid charging for mobile phone
IC chip inside prevents overcharging and short circuit

Introducing the DS003M Waterproof Aluminium Motorcycle Din Dual QC3.0 USB-A Charger with LED Voltmeter and Button Switch. This innovative and versatile charger is designed to meet the fast charging needs of today's on-the-go lifestyle. With two 18W / 3A QC3.0 fast charging ports, this charger is capable of delivering a charging speed that is 4x faster than conventional chargers, ensuring that your devices are powered up in no time.

One of the standout features of this charger is its waterproof and dust-proof cover, which is removable and can withstand even the harshest environments. This makes it perfect for use in a wide range of vehicles, including marine, ATV, motorcycle, car, truck, golf cart, RV, boat, SUV, and more. No matter where your adventures take you, this charger is built to withstand the elements and keep your devices charged and ready to go.

The DS003M is designed to work with all 12V-24V vehicles, providing a seamless charging experience wherever you are. The inclusion of a button switch allows for easy control and operation, while the LED voltmeter provides real-time monitoring of the vehicle's battery voltage, ensuring that you are always aware of the power status.

Crafted from high-quality aluminium, this charger not only delivers exceptional performance but also boasts a sleek and durable design. Its compact size and DIN form factor make it easy to install and integrate seamlessly into your vehicle's dashboard or handlebars.

Whether you're on a road trip, off-roading adventure, or simply commuting to work, the DS003M Waterproof Aluminium Motorcycle Din Dual QC3.0 USB-A Charger with LED Voltmeter and Button Switch is the perfect companion for keeping your devices charged and ready for whatever the journey brings. Experience the convenience and reliability of fast charging on the go with this exceptional

charger.

Product Name	motorcycle Din dual QC3.0 USB -A charger
Input Voltage	12V-24V
Output Voltage	5V-12V
Output Current	3A
Operating Temperature	-25°C ~+60°C
Material	Aluminum alloy
Illuminated or not	Yes
Led Color	Blue(or Green,Red Color)
