

## **DS008M Motorcycle dual USB with Voltmeter adapter**

### **DS008M Factory Waterproof 12v Motorcycle DIN USB 4.2A with Voltmeter adapter**

- 1、 HELLA/DIN plug to USB, not a cigarette lighter socket in the car.
- 2、 Double USB-A with voltmeter adapter, Its compact DIN dimensions and modern hexagonal exterior not only save space, but also add a technological aesthetic to your interior decor.
- 3、 motorcycle din to usb c Built-in smart IC chip. Protect your device from overvoltage, It also integrates a voltage display, which can display the voltage status of the vehicle battery in real time, so that you can know the health of the car's electrical system at any time, and more peace of mind during travel. Certified by CE and ROHS
- 4、 din plug to usb built-in cool and fashionable LED ring, through the LED ring, you can see the status of the power connection
- 5、 The input voltage should be DC 12V-24V, suitable for Ducati/Triumph /BMW motorcycles in European style.

### **DS008M Factory Waterproof 12v Motorcycle DIN USB 4.2A with Voltmeter adapter**

#### Product description

Product name: USB Car Charger

Special Feature: Fast Charging

Led Color: Blue/Red/Green

Type: PD + QC 3.0 & Switch

Input Voltage: 12-24 Volts

Amperage: 1.5 Amps

Weight: 50g

Rapid charging for mobile phone

IC chip inside prevents overcharging and short circuit

### **Introduction:**

Introducing the 12V Motorcycle DIN USB 4.2A with Voltmeter Adapter, the ultimate solution for powering and charging your devices on the go. This innovative adapter is designed to seamlessly integrate into your motorcycle's DIN socket, providing a reliable and convenient power source for your USB devices.

Equipped with a HELLA/DIN plug to USB connection, this adapter offers a secure and stable power supply without the need for a cigarette lighter socket in your vehicle. The double USB-A ports allow you to charge multiple devices simultaneously, while the built-in voltmeter provides real-time monitoring of the voltage, ensuring the safety of your devices.

Featuring a built-in smart IC chip, this adapter offers protection against overvoltage, safeguarding your devices from potential damage. The cool and fashionable LED ring not only adds a stylish touch to your motorcycle but also serves as a visual indicator of the power connection status, allowing you to easily monitor the charging process.

With an input voltage range of DC 12V-24V, this adapter is compatible with a wide range of motorcycles, providing a versatile and practical solution for powering your devices while on the road. Whether you need to charge your smartphone, GPS device, or any other USB-powered gadget, this adapter ensures reliable and efficient power delivery.

Say goodbye to the hassle of running out of battery power while riding and experience the convenience of the 12V Motorcycle DIN USB 4.2A with Voltmeter

Adapter. Stay connected and powered up during your journeys, knowing that your devices are protected and charged with this high-performance and stylish adapter. Upgrade your motorcycle's power capabilities with this essential accessory and enjoy the freedom of staying connected wherever the road takes you.

Product Name	Motorcycle dual USB with Voltmeter adapter
Input Voltage	12V-24V
Output Voltage	5V-12V
Output Current	1.5A
Operating Temperature	-25°C ~+60°C
Material	Copper + ABS Plastic
Terminal type	1 Pin Terminals
Illuminated or not	Yes
Led Color	Blue(or Green,Red Color)
Material	Aluminum alloy
