

DS015M01 3.1Amp Waterproof Motorcycle Dual USB Adapter

DS015M01 3.1Amp Waterproof Motorcycle Dual USB Charger Kit SAE to USB Adapter Cable Phone Tablet GPS Charger

- 1、 Input Voltage: 12-24V; Output: 5V, 3.1Amp. It can charge just about any phone, Tablet, GPS, camera, etc.
- 2、 Standard SAE quick release connection complying with most brands of SAE cables. The fused ring terminal harness is not included. Use your existing fused sae harness to connect the usb charger with the power source for safe operation.
- 3、 Safety design against over-current, over-voltage, over-temperature and reverse connection. WATERPROOF - Fully glued PCBA without any worry of water damage.
- 4、 Multiple Mounting Options - it can be mounted to almost any surface with tape, zip ties or screws (hardware not included)
- 5、 With the upgraded sleep mode, it will not drain any power from the battery if no usb devices in charging. It can be connected with the power for long time without battery drain. Keep the cap on when not in use to prevent dust in.

DS015M01 3.1Amp Waterproof Motorcycle Dual USB Charger Kit SAE to USB Adapter Cable Phone Tablet GPS Charger

Product description

Product name: Motorcycle Dual USB Adapter

Color: black

Type: SAE TO USB Adapter

Product Dimensions: 0.5"D x 4"W x 2"H

Input Voltage: 12-24V

Output: 5V, 3.1Amp

Waterproof level: IP68

Wire: 3.3m long extension cable

Introduction:

The 3.1Amp Waterproof Motorcycle Dual USB Charger Kit. This cutting-edge device is designed to provide convenient and reliable charging for your phone, tablet, GPS, or any other USB-powered device while you're on the road. With its 3.1 amp dual USB interface, low power consumption, and seamless injection body with a waterproof cap, this charger is the perfect solution for staying connected and powered up during your rides, no matter the weather conditions.

The 3.1Amp Waterproof Motorcycle Dual USB Charger Kit is engineered to meet the demands of motorcycle enthusiasts who require a durable and high-performance charging solution. Its waterproof design ensures that your devices stay protected from rain, splashes, and dust, allowing you to focus on your ride without worrying about the safety of your electronics. The seamless injection body and waterproof cap provide a secure and reliable seal, giving you peace of mind while you're out on the road.

This versatile charger is equipped with a SAE to USB adapter cable, making it easy to connect to your motorcycle's power source. Whether you're on a long-distance tour, a weekend adventure, or simply commuting to work, this charger is the ideal companion for keeping your devices powered up and ready to use. Its 3.1 amp dual USB interface allows for fast and efficient charging, ensuring that you can stay connected and navigate with ease, even during extended rides.

With its sleek and compact design, the 3.1Amp Waterproof Motorcycle Dual USB Charger Kit seamlessly integrates into your motorcycle's aesthetics, providing a seamless and professional look. Its low power consumption ensures that it won't drain your motorcycle's battery,

allowing you to charge your devices without any impact on your bike's performance. Whether you're a seasoned rider or a new enthusiast, this charger is a must-have accessory for enhancing your riding experience and staying connected on the go.

Experience the convenience and reliability of the 3.1Amp Waterproof Motorcycle Dual USB Charger Kit and elevate your riding adventures to the next level. Stay powered up, connected, and prepared for any journey with this innovative and high-performance charging solution.
