

1. DS015V

**Item name:** DS015V Fahrenheit temperature thermometer

**Short description:**

**DS015V Waterproof circular Fahrenheit temperature thermometer for testing**

- 1. 12/24V system automatic detection**
- 2. Completely sealed without openings**
- 3. Reverse polarity input protection**
- 4. Shell material: flame-retardant nylon material**

**DS015V Waterproof circular Fahrenheit temperature thermometer for testing**

**Specification:**

Net Weight: 30g

Material: PC、ABS

Body color: Black

Power Input: DC 12V-24V

DS015V Waterproof Circular Fahrenheit Temperature Thermometer, the ultimate solution for accurate temperature monitoring in any environment. This innovative thermometer is designed to provide reliable temperature readings in a wide range of applications, from automotive and marine to industrial and agricultural settings.

One of the key features of the DS015V thermometer is its automatic detection for 12/24V systems, making it versatile and easy to integrate into various electrical systems. This ensures seamless compatibility and hassle-free installation, saving time and effort for users.

The thermometer is completely sealed without any openings, making it waterproof and resistant to environmental elements such as moisture, dust, and debris. This robust construction ensures the durability and longevity of the thermometer, even in harsh conditions.

Safety is paramount, which is why the DS015V thermometer is equipped with reverse polarity input protection. This feature provides added peace of mind, protecting the device from potential damage due to incorrect power supply connections.

Constructed with flame-retardant nylon material, the shell of the thermometer is not only durable but also designed to withstand high temperatures, making it suitable for a wide range of operating environments.

With its compact circular design, the DS015V thermometer is not only functional but also aesthetically pleasing, adding a modern touch to any dashboard, control panel, or instrumentation setup.

Product Name	Fahrenheit temperature thermometer
Input Voltage	12V-24V
Operating Temperature	-25°C ~+60°C
Material	PC、ABS
Terminal type	2 Pin Terminals
Illuminated or not	Yes
Led Color	Blue
Housing color	Black
Accessories	Nut
Order confirm	* What LED Color?
<b>What You Get</b>	1X temperature thermometer, blue Led
