DS017/18/19V-S colorful voltmeter 4.8A dual USB socket with switch for boats, the ultimate solution for all your power needs on the water. This innovative product is designed to provide convenience, safety, and efficiency for boat owners and enthusiasts.

Crafted with fireproof PC material, this voltmeter and USB socket combination ensures maximum safety and durability, making it ideal for marine environments. The fast heat dissipation and strong heat resistance properties further enhance its reliability, allowing for continuous and reliable performance even in challenging conditions.

Equipped with intelligent dual 2.4A outputs, this device delivers high-speed charging for your electronic devices, ensuring that you stay connected and powered up while out at sea. The real-time voltage detection feature provides valuable insights into the status of your boat's electrical system, allowing for proactive maintenance and troubleshooting.

The vibrant and colorful display of the voltmeter adds a touch of style to your boat's dashboard, while the integrated switch offers convenient control over the connected devices. Whether you're charging your phone, tablet, or any other USB-powered device, this versatile socket meets all your power supply needs with ease.
