DS2022G DS2024G DS2025G DS2028G All copper high-power car mounted cigarette lighter extension line 12V 24V for car

Specs:

Weight: 250g

Shell color: black

Our all-new, high-power car mounted cigarette lighter extension line, designed to meet the diverse needs of modern vehicle owners. This versatile product is compatible with both 12V and 24V systems, making it suitable for a wide range of vehicles.

One of the key features of this extension line is its emergency starting power supply grounding wire for automobiles. This ensures that you have a reliable backup power source in case of unexpected battery issues, providing peace of mind for long journeys or in emergency situations.

In addition to its emergency power capabilities, this extension line also serves as a multi-functional vehicle charging cigarette holder. This means you can conveniently charge multiple devices while on the go, without the need for multiple adapters or cables cluttering up your car interior.

Furthermore, our high-power car cables are designed to meet the demands of modern vehicles, providing a reliable and efficient power supply for various electronic devices and accessories. Whether you need to power a high-power device or simply charge your smartphone, this extension line has you covered.

Each product is individually packaged, ensuring that it arrives in perfect condition and ready for immediate use. This attention to detail reflects our commitment to providing high-quality products that meet the needs of our customers.
