

IB-AK17 Dual 50A Anderson Plug Jumper Cable Plug Connector Kit

DESCRIPTION:

IB-AK17 600 V Battery Quick Cable Connector 8 AWG Cable Battery Quick Connect Disconnect Dual 50A Anderson Plug Jumper Cable Plug Connector Kit for Recovery Winch Boat Towing

1. It can be quickly connected and disconnected, with a polarized housing that is easy and easy to install
2. Customizable multipole configuration to prevent connector damage due to errors
3. Using silver plated copper material for excellent conductivity, reducing resistance, and enhancing conductivity
4. Stable current and voltage, suitable for various high current applications

IB-AK17 600 V Battery Quick Cable Connector 8 AWG Cable Battery Quick Connect Disconnect Dual 50A Anderson Plug Jumper Cable Plug Connector Kit for Recovery Winch Boat Towing

Features:

- *Brand new and high quality
- *Made of high quality material, strong and
- *Gender-neutral, polarity protected 120A power connection.
- *8AWG automotive cable, continuous current rating of 120 amps
- *120 amps max!
- *Do not connect 2 devices whose total current exceeds 120 amps.
- *Do not connect to unfused or unprotected circuits.
- *Suitable for the installation and use of high-end large vehicles such as ships, yachts, RVs, and buses.

Specification:

- *Specification: 120A

- *Rated voltage: 600V
- *Contact material: copper silver
- *Operating temperature -20°C to 105°C
- *120A use wire gauge: 8AWG
- *Protection grade: IP20
- *material: plastic
- *Plug color: gray
- *Wire diameter: 8AWG
- *Length: 30cm, 50cm (optional)

Anderson Plug:Rated current 175 A,maximum withstand voltage 600 V,Working temperature -40 °C to 180 °C;The shell is made of flame-retardant materials,corrosion-resistant and high-temperature resistant

30cm/50cm (optional) Cable:This battery quick connector with cable harness,made of 8 AWG tinned copper wire and pvc sheath soft and elastic,heat resistant to 105 °C providing stable current for your equipment and minimizing power loss

Completed Kit:The anderson kit is an already connected kit including 2 50A Anderson plugs 4 terminals and 2 wires,provides a simple and convenient method for One-to-One Quick Connect Disconnect

Easy Use:The anderson connector and wires are already connected so you don't need to do complicated wiring,adapters of the same color can be easily and quickly connected disconnected without being limited by plugs or sockets

Application:Power connect for various electrical equipment such as electric forklifts batteries trucks elevators cranes tugboats outboard engines on board household industrial applications lathes chargers and power inverters

Product name	IB-AK17 Anderson Plug High Power Wiring
Model	IB-AK17
Housing Color	Red/Black
Material	Purple copper silver plating
Authentication	CE
Ampere	120A (40-350A)
Voltage	600V
Application areas	Anderson plug
