

6.IB-ATA06

IB-ATA06 Anderson Cord Dust Cover

DESCRIPTION:

IB-ATA06 Anderson connector 120A plug with wire dust cover forklift car power high current connector

Product features:

1. Corded for easy installation
2. Built in copper plated silver terminals to enhance their conductivity
3. The shell material is PC UL94V-0, which has excellent flame retardancy
4. The wire is made of stainless steel material, which is more durable and corrosion-resistant

IB-ATA06 Anderson connector 120A plug with wire dust cover forklift car power high current connector

This product is engineered with a focus on durability, safety, and ease of use, making it an ideal choice for demanding industrial and automotive environments.

Featuring a corded design, the Anderson Connector 120A Plug with Wire Dust Cover is designed for easy installation, saving time and effort during setup. The built-in copper-plated silver terminals enhance conductivity, ensuring a reliable and efficient power connection. This is crucial for high-current applications where a secure and stable electrical connection is essential.

The shell material of the connector is made of PC, providing excellent flame retardancy and safety in case of unexpected electrical events. This ensures that the connector can withstand harsh operating conditions and contributes to overall safety in the workplace.

The wire itself is constructed from stainless steel material, offering superior durability and corrosion resistance. This ensures that the connector can withstand the rigors of daily use, including exposure to moisture, chemicals, and other environmental factors. The use of high-quality materials also contributes to the longevity of the product, reducing maintenance and replacement costs over time.

In summary, the Anderson Connector 120A Plug with Wire Dust Cover is a reliable and high-performance power connector suitable for a wide range of industrial and automotive applications. Its combination of easy installation, enhanced conductivity, flame-retardant shell material, and durable wire construction make it a valuable addition to any power system requiring a high-current connector. With a focus on quality and performance, this product is designed to meet

the demands of modern industrial and automotive environments, providing a safe and reliable power connection solution.

Product name	IB-ATA06 Anderson Cord Dust Cover
Model	IB-ATA06
Housing Color	Red/Black
material	PVC
Size	45.2*29*20.9mm
Ampere	120A
Application areas	Anderson plug
