

IB-FW01 Fog Light Harness Control Refit Button Switch

IB-FW01 Automobile Water Drip-Type New Energy Vehicle General Fog Light Harness Control Refit Button Switch

Color: Black

Material: ABS plastic

Type: On/Off

Voltage: 12V

IB-FW01 Automobile Water Drip-Type New Energy Vehicle General Fog Light Harness Control Refit Button Switch

Specification:

Car Accessory Automotive Led Drying Bar Light Wire Harness Use Mouse Type Switch

Front Bumper Fog Lights Lamps Wiring Off/On Switch For 2011-2013 Hyundai Elantra Clear

Wire Type: UL, TXL, Teflon, CCC, AVS, AVSS, CSA, VDE, SAA, CB, pure copper etc.

Wire Size: 4AWG-28AWG, 0.08m²-21m² approved

Wire Cores: 1-980 cores approved
Conductor's material: Bare/pure Copper
Rated Temperature: -40°C~+200°C

High quality and brand new

Easy to install

Waterdrop tear shape push button on/off switch

Red and green LED indicator lights for on and off

Perfect for adding fog lamps, LED daytime running lights, LED light bars, work light

Specification:

Type: On/Off

Voltage: 12V

Some dedicated modifications for water droplet switches in cars include the following:

1. Universal shiny and soft water droplet switch for car modification: It often comes with a 3-pin fog light and a wire harness, and a 12-24v button switch. Suitable for multiple car models, it offers a shiny and soft touch.
2. Adaptable rocker switch for Shaanxi Delong X3000: This can be used for modifying functions such as the water droplet spray for fog lamps, alarm power switches, and more.

It's important to note that when choosing a modified water droplet switch, factors like compatibility with your vehicle model, quality, installation methods, and legal compliance should be considered.

Product Name	12V 40A car fog light wire harness kit loom
Items	IB-FW01

Warranty	12months
Certificate	ISO9001
Packing	Neutral Packing
Application	10 Automotive,Electrical,Industry
Condition	100% Brand New!

Note: If you need other needs, welcome to send us an enquiry!
