

**Item name: IB-P1001 High Power 5 Gang Waterproof Switch Panel**

**Product Specification :**

**IB-P1001 High Power 5 Gang Waterproof Switch Panel 12V 24V Marine Toggle Rocker Switch Panel with Anderson**

**Connector**

- \* Input: 12-24V DC
- \* 5 x Rocker Toggle switches with blue LED 20amp @ 12V
- \* 2 x 50A Anderson style connectors with covers
- \* Accessory power socket 20A @ 12V
- \* Quick charge dual USB socket
- \* Range port 1: 2.4A @ 5V, Port 2: QC3.0, 3.6V-12V max 18W
- \* Housing: Nylon & includes M4 stainless screws

\* Supplied with 2 sets of stickers

## **IB-P1001 High Power 5 Gang Waterproof Switch Panel 12V 24V Marine Toggle Rocker Switch Panel with Anderson Connector**

Are you looking for a reliable and convenient switch panel for your marine adventures? Look no further than the High Power 5 Gang Waterproof Switch Panel 12V 24V Marine Toggle Rocker Switch Panel with Anderson Connector. This versatile panel is designed to meet all your power control needs while out on the water. With features such as a 12V power socket and a 2.1A 5V dual USB charger, you can easily charge your essential devices such as phones, tablets, cameras, GPS, and headsets. The convenience of having all these charging options in one place ensures that you stay connected and powered up throughout your journey.

In addition to its practical charging capabilities, this switch panel also boasts a blue backlight with LED light switches. This feature not only provides visibility during nighttime operation but also adds a touch of modernity to your marine setup. The soft blue glow is easy on the eyes and allows for quick identification of switches in low-light conditions. Furthermore, the digital voltmeter display is a standout feature that monitors your vehicle's voltage in real-time. With a range of 6-30V, you can easily keep track of

your power usage and ensure that your marine equipment is operating at optimal levels.

The High Power 5 Gang Waterproof Switch Panel is a game-changer for marine enthusiasts seeking a reliable and efficient power control solution. Its durable and waterproof design, combined with the convenience of multiple charging options and voltage monitoring, makes it an essential addition to any marine vessel. Whether you're embarking on a fishing trip, leisurely cruise, or adventurous voyage, this switch panel is a must-have for enhancing your marine experience. Say goodbye to power-related worries and hello to seamless control and convenience with this top-of-the-line switch panel.

DC voltage	3-30V
Product model	IB-P1001
Maximum contact load	AC 125V/10A, 2V/20A '24V/10A
Protection function	waterproof
Electrical life	200000 times
Application scope	automobile
Mechanical life	100000 times

3C rated voltage range	above 50V and below 440V
Operating temperature	- 20~75 °C
Shell material	ABS
Warranty	1 year
Protection grade	IP65
Contact material	copper contact
Product series	DC series
