

**Item name: IB-P1102 8 Gang Multi-Function Rocker Dual USB Charger Switch Panel**

**Specification :**

**IB-P1102 8 Gang Multi-Function 8 Gang Rocker Dual USB Charger Digital Voltmeter 12V Outlet Pre-Wired Switch Panel with Circuit Breakers**

Color: Black

Material: ABS, Aluminium Plate

Voltage: 12V-24V

USB Port Output: DC 5V / 4.2A

**IB-P1102 8 Gang Multi-Function 8 Gang Rocker Dual USB Charger Digital Voltmeter 12V Outlet Pre-Wired Switch Panel with**

**Circuit Breakers**

Power Outlet: DC 12V

Voltmeter display range: 6 - 30V

Overload protection: 12V - 24V, 15A DC

Operating Temperature: -25 degree to 80 degree

Size: 15cm/5.91inch x 11cm/4.33inch.

Cigarette Lighter Socket: Standard DC 12V socket in  $\Phi$  0.85", Quickly Power up car electrical devices

Dual USB Smart Charger: DC 5V 4.2A (2.1A+2.1A) dual usb port, meet the charging needs of different usb-devices

Precise Voltmeter: 3-Bit digital display, Easy read out your car voltage

Are you looking to upgrade your vehicle's electrical system with a versatile and efficient control panel? Look no further than the 8 Gang Multi-Function Rocker Switch Panel. This multifunctional panel kit is equipped with a range of features designed to enhance the functionality and convenience of your vehicle. With dual USB chargers providing a total output of DC 5V/4.2A, a 12V power outlet, and a digital voltmeter display range of 6 - 30V, this panel offers a comprehensive solution for powering and monitoring your electronic devices on the go.

The 8 Gang Multi-Function Rocker Switch Panel is not only a power hub but also a reliable control center for various 12V electronic systems. The panel includes 8 LED toggle switches with a 15A fuse, providing overload, over-current, and short circuit protection. This ensures the safety and longevity of your electronic devices, making it suitable for use in marine boats, RVs, and even household applications. The versatility of this panel makes it an ideal choice for those with multi-functional requirements, catering to both 12V and 24V systems. Whether you need to control LED lights or other electronic systems, this panel offers a convenient and

efficient solution.USB socket safety protection: It's certified by CE & ROHS with overload, over-current and short circuit protection to ensure charging safety, meanwhile, built-in converse connection protection that ensures the circuit won't be burnt out if wrong wiring.

With its wide application and robust features, the 8 Gang Multi-Function Rocker Switch Panel is a must-have for any vehicle enthusiast. Its durable construction and comprehensive functionality make it suitable for a range of vehicles, including cars and marine boats. Whether you’ re embarking on a road trip or setting sail on the open water, this panel will provide the power and control you need. Upgrade your vehicle’s electrical system today with the 8 Gang Multi-Function Rocker Switch Panel and experience the convenience and reliability it has to offer.

Product Name	8 Gang Multi-Function Rocker Dual USB Charger Switch Panel
Product model	IB-P1102
Input	12V 20A / 24V 10A DC
Function	5Pin On-Off dual led

Led Color	Blue Red Green White Orange
Application	For Car Bus Marine Boat RV SUV Truck..
Waterproof Grade	IP67
Voltmeter display range	6 - 30V
Certification	CE ROHS
Warranty	1 Year
wire harness	included
Operating Temperature	-25° C to 80° C
Overload protection	12V - 24V, 15A DC
