

Item name: IB-P1103 Waterproof 8 Gang Rocker Dual USB Charger Switch Panel

Specification :

IB-P1103 Waterproof 8 Gang Rocker Dual USB Charger Digital Voltmeter 12V Outlet Pre-Wired Switch Panel with Circuit Breakers

- * Material: ABS+PC+Aluminum
- * Rocker Switch: 8
- * Color: Blue/Green/Red
- * Input Voltage: DC 12V/20A, 24V/10A
- * Cigarette Socket: 12V/24V
- * USB Output: 5V 2.1A+2.1A
- * Waterproof: IP66

IB-P1103 Waterproof 8 Gang Rocker Dual USB Charger Digital Voltmeter 12V Outlet Pre-Wired Switch Panel with Circuit Breakers

Looking for a versatile and reliable switch panel for your vehicle or marine boat? Look no further than the Waterproof 8 Gang Rocker Dual USB Charger Digital Voltmeter 12V Outlet Pre-Wired Switch Panel with Circuit Breakers. This multifunctional panel is

made of fireproof material, ensuring safety and durability. It is designed for easy installation and can be used for all 12V-24V cars, trucks, buses, trailers, RVs, and marine boats. With 8 toggle switches, dual USB charger, cigarette lighter socket, and LED voltmeter, this panel offers a wide range of functions to meet your needs.

The dual USB charger feature allows you to conveniently charge your phones, tablets, cameras, GPS, wireless headphones, and other devices while on the go. The inclusion of a cigarette lighter socket provides additional convenience for powering various electronic devices. The LED voltmeter is a valuable addition, allowing you to monitor battery voltage and ensure proper maintenance for extended battery life. This feature is especially useful for those who rely on their vehicles or boats for extended periods, providing peace of mind and reliability.

In addition to its functionality, the Waterproof 8 Gang Rocker Dual USB Charger Switch Panel is designed with a focus on user convenience and safety. The pre-wired design and circuit breakers make installation and usage hassle-free, while the waterproof feature ensures its suitability for marine environments. Whether you're a professional driver, outdoor enthusiast, or marine enthusiast, this switch panel is a must-have accessory for enhancing the functionality and safety of your vehicle or boat. With its combination of practical features and durable construction, this switch panel is a valuable investment for anyone seeking reliable

power management solutions on the go.

Input voltage:	12 - 24V DC
Product model	IB-P1103
Product size	150*110*30mm
Output voltage:	12V DC
Digital Voltmeter:	Voltage indicator real-time monitor your vehicle's voltage from 10V to 28V. Help users pay attention to the voltage situation,ensure the Equipment Safety.
Output current:	4.2A (2.1A+2.1A)
Output voltage:	5V
LED Light:	Blue
Working voltage:	12-24V
