

**Item name: IB-P1104 Waterproof Marine Car 6 Gang Rocker Switch Panel**

**Specification :**

**IB-P1104 Waterproof Marine Car 6 Gang Rocker Switch Panel with Dual USB Socket Digital Voltage Display 50A Rated Anderson Connector**

- \* Input: 12-24V DC
- \* 6 x Rocker Toggle switches with blue LED 20amp 12V
- \* 2 x 50A Anderson style connectors with covers
- \* Accessory power socket 20A 12V

**IB-P1104 Waterproof Marine Car 6 Gang Rocker Switch Panel with Dual USB Socket Digital Voltage Display 50A Rated Anderson Connector**

- \* Quick charge dual USB socket
- \* Range port 1: 2.4A 5V, Port 2: QC3.0, 3.6V-12V max 18W
- \* Housing: Nylon & includes M4 stainless screws
- \* Supplied with 2 sets of stickers

Are you in need of a versatile and reliable switch panel for your marine or automotive needs? Look no further than the

Waterproof Marine Car 6 Gang Rocker Switch Panel with Dual USB Socket and Digital Voltage Display. This high-quality switch panel is designed to meet the demands of various applications, including 4WD vehicles, campers, caravans, canopies, and boats. With its 6 gang design, it provides ample control options for your specific electrical needs. The panel comes pre-wired for easy installation, and it includes Anderson style plug covers and M4 stainless screws for added convenience.

One of the standout features of this switch panel is its waterproof design, making it ideal for marine and outdoor use. The inclusion of a digital voltage display ensures that you can easily monitor the electrical system's status, providing peace of mind during your adventures. Additionally, the dual USB socket allows for convenient charging of electronic devices while on the go. The 50A rated Anderson connector further enhances the panel's versatility, accommodating various power requirements with ease. Another great feature of panels is they come with 2 x switch sticker sets so the switches can easily be identified.

Whether you're outfitting your boat for a fishing trip or customizing your 4WD for off-road excursions, this switch panel is a must-have accessory. Its durable construction and user-friendly design make it a popular choice among enthusiasts and professionals alike. With the Waterproof Marine Car 6 Gang Rocker Switch Panel with Dual USB Socket and Digital Voltage Display, you can take control of your electrical systems with confidence and reliability.

In conclusion, this switch panel offers a comprehensive solution for managing electrical components in marine and automotive settings. Its waterproof construction, digital voltage display, dual USB socket, and 50A rated Anderson connector make it a versatile and practical choice for a wide range of applications. Whether you’ re a seasoned adventurer or a weekend warrior, this switch panel is sure to enhance the functionality and convenience of your electrical systems.

DC voltage	3-30V
Product model	IB-P1104
Maximum contact load	AC 125V/10A, 2V/20A '24V/10A
Protection function	waterproof
Electrical life	200000 times
Application scope	automobile
Mechanical life	100000 times
3C rated voltage range	above 50V and below 440V
Operating temperature	- 20~75 °C
Shell material	ABS
Warranty	1 year
Protection grade	IP65

Contact material	copper contact
Product series	DC series
