

Item name: IB-P1202 10 Gang 15A LED Toggle Car Auto Marine Boat RV Rocker Switch Panel

Panel Specifications:

IB-P1202 12V/24V 10 Gang 15A LED Toggle Car Auto Marine Boat RV Rocker Switch Panel w/ Dual Power Control

Waterproof Overload Protection

10 Gang 15A LED Toggle Car Auto Marine Boat RV Rocker Switch Panel

Material: Aluminum Plate, water transfer printing surface processing

Switch Qty: 10PCS

Others: Cigarette lighter socket,volt-ammeter 1PCS

**IB-P1202 12V/24V 10 Gang 15A LED Toggle Car Auto Marine Boat RV Rocker Switch Panel w/ Dual Power Control
Waterproof Overload Protection**

Switch Specifications:

Material:PA66+G15 UL94-V0

RATING:12V 12A 24V 6A + 230V 16(8)A

Electrical Life: Mechanical life IE5, Load Life IE4

Salt spray test: 5% NACL , Solution Concentration: 8H MIN

Drop test: 1.5M,3 times drop, the switch with no loss of performance

Operating force: 300g--700g.N

Others: Contact impedance measurement < 100 milliohm

Female Cigarette lighter Specifications:

Material: A66+G15 UL94-V0

Durability: 6000 MIN

Insertion and extraction force: 400g-800g.N

Current parameter: 15A MAX

Volt-ammeter Specifications:

Material: PA66+G15 UL94-V0

Voltage range: 5V-100V

Current range: 0-100A

Are you looking to upgrade your car, boat, RV, or marine equipment with a high-end switch panel that offers both functionality and safety features? Look no further than the 12V/24V 10 Gang 15A LED Toggle Switch Panel with Dual Power Control and Waterproof Overload Protection. This switch panel is made of environmental flame-resistant material and is designed to meet the needs of super high-end vehicles and boats. The LED indicator light not only adds a stylish touch but also provides visibility in low-light conditions, making it a practical and aesthetic addition to your vehicle or marine vessel.

In addition to its sleek design, this switch panel is equipped with multiple safety features, including output short circuit protection, overload protection, and reverse polarity protection. These features ensure a safer and more reliable user experience,

giving you peace of mind while operating your equipment. The dual power supply control allows for versatile use, with half control for DC12-24V and half control for 110-230V, making it compatible with a wide range of vehicles and marine systems. Furthermore, the switch panel comes with a cigarette lighter socket and USB charger, providing convenient access to power for various devices, including mobile phones.

Whether you need to control lighting, pumps, fans, or other equipment, the 12V/24V 10 Gang 15A LED Toggle Switch Panel offers a comprehensive solution for your vehicle or marine needs. Its durable construction, advanced safety features, and versatile power supply control make it a valuable addition to any refitted vehicle or boat. Upgrade your equipment today with this reliable and stylish switch panel, and enjoy the convenience and peace of mind it brings to your driving or boating experience.

Product name	10 Gang 15A LED Toggle Car Auto Marine Boat RV Rocker Switch Panel
Material	Aluminum Panel
Product model	IB-P1202

Input	12v-24V
Swtich Function	On-OFF,5Pin ,dual led
Waterproof Grade	IP66
Usage	For Car Bus Truck RV SUV Marine Boat
Warranty	1 Year
