

**Item name: IB-P1601 6 Gang 5 Pin ON/Off Toggle Rocker Switch Panel**

**Specification :**

**IB-P1601 6 Gang 5 Pin ON/Off Toggle Rocker Switch Panel with 12V-24V LED Digital Voltmeter 3.1A Dual USB Charger Cigarette Lighter Socket**

Dual USB charging ports\*2 with output of 3.1 A enables you charge 4 devices at high speed simultaneously.

Input voltage: 12 - 24V DC

Output voltage: 5V DC

Output current: 3.1A (2.1A & 1A)

**IB-P1601 6 Gang 5 Pin ON/Off Toggle Rocker Switch Panel with 12V-24V LED Digital Voltmeter 3.1A Dual USB Charger Cigarette Lighter Socket**

Are you looking to upgrade your vehicle's control panel with a sleek and efficient solution? Look no further than the 6 Gang

5 Pin ON/Off Toggle Rocker Switch Panel with 12V-24V LED Digital Voltmeter 3.1A Dual USB Charger Cigarette Lighter Socket. This versatile panel is designed to provide you with enhanced control over various electrical components in your vehicle, all while offering convenience and modern features.

The 6 Gang Blue LED Lights Switch Rocker panel features a premium aluminum panel that not only looks stylish but also ensures durability and strength. The blue LED lights add a touch of modernity to your vehicle's interior, making it easier to locate the switches even in low light conditions.

One of the standout features of this switch panel is the inclusion of a voltage meter and dual USB ports. The voltage meter allows you to monitor the electrical system's voltage, providing you with crucial information about the health of your vehicle's electrical system. The dual USB ports offer a convenient way to charge your devices on the go, with an output of DC 5V 3.1A, ensuring fast and efficient charging for your gadgets.

In terms of safety and protection, this switch panel is designed with a built-in reset function. In the event of a disconnect or overload, the switch will automatically cut off the circuit, protecting the electrical system from damage. This feature provides peace of mind, knowing that your vehicle's electrical components are safeguarded from potential overloads.

Additionally, the rubber cover for the USB port and cigarette lighter slot adds an extra layer of protection, keeping these ports safe from dust and debris when not in use.

Overall, the 6 Gang 5 Pin ON/Off Toggle Rocker Switch Panel with 12V-24V LED Digital Voltmeter 3.1A Dual USB Charger Cigarette Lighter Socket is a must-have upgrade for any vehicle enthusiast looking to enhance their control over electrical components while adding modern features to their vehicle's interior. With its sleek design, advanced features, and focus on safety, this switch panel is a valuable addition to any vehicle.

Place of Origin	China
	Zhejiang
Model Number	IB-P1601
Max. Current	10A, 20A
Max. Voltage	12V, 24V
Mechanical Life	50000 Cycles
IP level	IP65

Switch type	ON-OFF Rocker Switch
Material	ABS+PC Fireproof Material
Application	Cars, Bus, Marine, off-road vehicles etc.
LED Light Color	Blue,Red,Green Available
Type	SPST (Single pole single throw)
Installation	Pre-wired
Rating	DC24V/10A,DC12V/20A
Waterproof Level	IP65
