

Item name: IB-P407/IB-P610 4/6 way switch panel control system

Short description:

IB-P407/IB-P610 is 4/6 way switch panel control system with wiring combination panel assembly used for RVs, trucks, etc.

1. There is a waterproof rubber ring with waterproof function, suitable for wearing or operating on rainy days.
2. Equipped with anti-corrosion function
3. Overload and overheating protection function
4. Easy to install, no need to purchase fuses, relays, etc. Separately

IB-P407/IB-P610 is 4/6 way switch panel control system with wiring combination panel assembly used for RVs, trucks, etc.

Specification:

100% brand new and high quality

Net Weight: 100g

Material: PC、ABS

Body color: Black

Power Input: DC 12V-24V

The Four Way Switch with Panel Control System is a versatile and advanced solution for managing multiple electrical circuits from a single, centralized location. With its intuitive panel control system, users can easily monitor and adjust the settings of various electrical components, ensuring seamless operation and optimal performance.

One of the key features of this product is its wiring combination panel assembly, which streamlines the installation process and minimizes the need for complex wiring configurations. This innovative assembly simplifies the setup of the control system, saving time and effort for installers while ensuring a reliable and secure electrical connection.

In addition to its functionality, the Four Way Switch with Panel Control System prioritizes safety. With its robust design and built-in safety features, users can have peace of mind knowing that their electrical systems are being managed with the highest standards of protection and reliability.

Furthermore, our product is built to meet the highest industry standards, ensuring durability and long-term performance. It is designed to withstand the rigors of daily use and deliver consistent results, making it a dependable choice for a wide range of applications.

Product Name	4/6 way switch panel control system
Input Voltage	12V-24V
Output Voltage	5V-12V
Operating Temperature	-25°C ~+60°C
Material	PC、ABS
Terminal type	Band line
Illuminated or not	Yes
Led Color	Red
Housing color	Black
Order confirm	* What LED Color?
What You Get	1X Four way switch panel OR 1X six way switch panel
