

Item name: IB-P501/IB-P601 5/6 gang rocker switch panel for marine

Short description:

IB-P501/IB-P601 is a panel combination of five or six ship type switches

- 1.5 Gang 6 Gang rocker switch aluminum panels, can be customized according to your requirements to remind you to use pre wired wiring harnesses, which can be easily installed on 12V and 24V vehicles.
2. Made of reinforced aluminum panels and good conductive pins, ensuring long-lasting durability, highly optimized, suitable for general use, providing you with a pleasant experience
3. 12-24V universal
4. Widely used: suitable for all cars, RVs, tanks, motorcycles, buses, boats, trailers, jeeps UTV, etc.

IB-P501/IB-P601 is a panel combination of five or six ship type switches

Specification:

5/6 rocker switch, panel
Weight: 100g
Material: ABS/PC
Body color: black
Power Input: DC 12V-24V

The Panel Combination of Five or Six Ship Type Switches offers a unique combination of features that set it apart from traditional switches. With its sleek and modern design, this product not only enhances the aesthetics of any space but also delivers exceptional performance. The switches are designed

to be durable and long-lasting, ensuring that they can withstand the rigors of daily use.

One of the key highlights of this product is its versatility. The panel combination allows for the integration of five or six different ship type switches, providing users with the flexibility to control multiple electrical circuits from a single, centralized location. This makes it ideal for use in homes, offices, commercial buildings, and industrial settings where multiple lighting or electrical systems need to be managed efficiently.

In addition to its functionality, the Panel Combination of Five or Six Ship Type Switches is also easy to install and use. The user-friendly design ensures that anyone can quickly and easily set up and operate the switches without the need for specialized knowledge or tools. This makes it a great choice for both professionals and DIY enthusiasts.

Furthermore, the switches are designed to meet the highest safety standards, providing peace of mind to users. They are built to prevent electrical hazards and are compliant with industry regulations, ensuring that they are safe to use in any environment.

Product Name	5/6 gang rocker switch panel for marine
Input Voltage	12V-24V
Output Voltage	5V-12V
Operating Temperature	-25°C ~+60°C
Material	ABS/PC
Terminal type	Band line
Illuminated or not	Yes
Led Color	Red / Green / Blue
Housing color	Black
Order confirm	* What LED Color?
What You Get	5 or 6 rocker switch+panel
