

Item name: IB-P704 6 Gang Rocker Switch Panel

Product description:

IB-P704 Rocker Switch Panel 6 Gang Toggle Rocker Switch Panel LED Voltmeter DC12V 20A DC 24V 10A Marine Boat Switch Panel

Material: ABS + PBT + PC

Item Color: Black

Operating Voltage: DC12V 20A, DC 24V 10A

Operating Temperature: -25 ~ 80°C

Voltmeter Display Range: 5V-15V

Fitment: Universal

IB-P704 Rocker Switch Panel 6 Gang Toggle Rocker Switch Panel LED Voltmeter DC12V 20A DC 24V 10A Marine Boat Switch Panel

Operating Voltage: DC12V 20A, DC 24V 10A

Operating Temperature: -25 ~ 80°C

Voltmeter Display Range: 5V-15V

Fitment: Universal

Are you looking for a reliable and efficient power control panel for your caravan, automotive, or marine vehicle? Look no further than the IB-P704 Color Voltmeter 6 Gang DC12V 24V Led On Off 5 PIN Rocker Switch Panel. Crafted from environmentally friendly anti-retardant materials, this switch panel is designed to handle a real 20Amp current on 12 Volt, ensuring optimal performance and safety. With output circuit protection, overload protection, and reverse polarity protection, you can rest assured that your vehicle's electrical system is in good hands.

In addition to its robust safety features, this switch panel is equipped with a waterproof casing, providing protection from rain or accidental spills. The inclusion of a color voltmeter adds another layer of functionality, allowing you to monitor the battery voltage and its state in real-time. The panel also features anti-reverse and short circuit protection, further enhancing its reliability and durability. With the ability to detect the battery voltage under normal operating conditions, this switch panel is an essential tool for maintaining the optimal performance of your vehicle's electrical system.

Whether you're embarking on a road trip in your caravan, navigating the open waters in your marine vessel, or cruising in your automotive vehicle, the IB-P704 Color Voltmeter 6 Gang DC12V 24V Led On Off 5 PIN Rocker Switch Panel is the ultimate power control solution. Its combination of advanced safety features, waterproof design, and real-time voltage monitoring make it a must-have for any vehicle enthusiast. Invest in the IB-P704 switch panel and take control of your vehicle's power system with confidence and peace of mind.

Model Number	IB-P704
Type	Rocker switch panel
Rating Current	10-20A

Certification	CE Approve
Color	Grey/violet/pink/orange/brown/red/blue/yellow/clear/green/purple
Payment terms	Paypal /TT
Quality	Standard
Product type	LED LIGHT BAR SWITCH
Product Name	6 Gang Rocker Switch Panel
Model	20 Kinds
Package	brown box
Material	PBT base + PC waterproof and dustproof cover + Nickel plated copper connection terminal
Function	Circuit protection
Size	22.5*69mm
