

Item name: IB-P807 7 Gang Rocker Switch Panel with 4.2A Dual USB Charger Voltmeter

Product description:

IB-P807 7 Gang Rocker Switch Panel with 4.2A Dual USB Charger Voltmeter Waterproof 12V/24V Rocker Switch with Night Glow Stickers

Input Voltage: DC 12V 24V

Operating Temperature: -13°F ~176°F / -25°C ~ 80°C

IP Rating: IP65

Material: ABS+PC+ Aluminum

Color: Black(as pictures show)

LED Color: Blue LED

Size : 23.2 cm x6.8cm

IB-P807 7 Gang Rocker Switch Panel with 4.2A Dual USB Charger Voltmeter Waterproof 12V/24V Rocker Switch with Night Glow Stickers

Are you looking for a versatile and reliable solution to control various circuits and charge your devices while on the go? Look no further than the 7 Gang Rocker Switch Panel with 4.2A Dual USB Charger Voltmeter Waterproof 12V/24V Rocker Switch with Night Glow Stickers. This multifunctional 12V LED light toggle switch panel kit is designed to meet all your circuit control and charging

needs. Crafted with engineering ABS plastic and an aluminum-built plate, this switch panel is not only durable but also waterproof, making it suitable for use in various environments.

The 7 on-off rocker switches included in the panel allow you to easily control different circuits in your vehicle, providing convenience and efficiency. Additionally, the built-in digital LED voltage indicator enables real-time monitoring of your vehicle's voltage, ensuring that you are always aware of the power status. This feature is particularly useful for measuring the voltage of various products, adding an extra layer of functionality to the switch panel.

Furthermore, the dual USB interface design, with a single output of 2.1A (total 4.2A), ensures rapid charging for all your USB devices. Whether you need to charge your smartphone, tablet, or any other USB-powered device, this switch panel has got you covered. The inclusion of night glow stickers also enhances visibility in low-light conditions, adding to the overall practicality and user-friendliness of the panel.

In conclusion, the 7 Gang Rocker Switch Panel with 4.2A Dual USB Charger Voltmeter is a must-have for any vehicle owner seeking enhanced control and charging capabilities. Its durable construction, multifunctional design, and real-time voltage monitoring make it a valuable addition to any vehicle. Whether you're an off-road enthusiast, a boating enthusiast, or simply looking

to upgrade your vehicle's functionality, this switch panel is sure to meet and exceed your expectations.

Product name	7 Gang Rocker Switch Panel with 4.2A Dual USB Charger
Material	ABS+Aluminium
Prodduct model	IB-P807
Size	232*68*68mm
Input	12v-24v
Output	DC20A\12V 10A\24V
USB Output	5V 4.8A (2.4A each)
Function	ON OFF 5Pin Dual Led
Usage	Car Bus Truck Marine Boat
Certificate	CE,ROHS
LED Voltage Display	Blue,Green,Red
Packing	Kraft box packing
Material	ABS+Aluminium
Input	12v-24v
Output	DC20A\12V 10A\24V
