

Item name: IB-P810 5 Ports On Off LED Light Toggle Waterproof Marine Rocker Switch Panel

Specification :

IB-P810 5 Ports On Off LED Light Toggle Waterproof Marine Rocker Switch Panel USB Car Power Socket with Voltmeter and Cigarette Socket

Material: Plastic and Metal

Product Color: Black

LED Indicator light color: Blue, red, green, orange, white

Input Voltage: DC 12-24V

waterproofing grade: IP65

IB-P810 5 Ports On Off LED Light Toggle Waterproof Marine Rocker Switch Panel USB Car Power Socket with Voltmeter and Cigarette Socket

.Are you in need of a reliable and versatile marine rocker switch panel for your boat or marine vehicle? Look no further than the 5 Ports On Off LED Light Toggle Waterproof Marine Rocker Switch Panel with USB Car Power Socket, Voltmeter, and Cigarette Socket. This high-quality panel is designed with short circuit and overheat protection for the on-off rocker switch, ensuring the safety

of your electrical system. The USB ports (2.1A x1, 1A x1) and DC voltmeter provide convenient power access and monitoring, while the rubber seal-cap keeps the panel water-tight, making it ideal for marine use.

In addition to its protective features, this rocker switch panel is equipped with overload protection by a circuit breaker, making it splash-proof and anti-corrosive. The easy installation process allows for horizontal or vertical placement, providing flexibility for your specific needs. Whether you have a 12V or 24V system, this panel is suitable for both and comes pre-wired for added convenience. The package also includes 6 stainless steel screws, ensuring a secure and durable installation for your marine applications.

Overall, the 5 Ports On Off LED Light Toggle Waterproof Marine Rocker Switch Panel with USB Car Power Socket, Voltmeter, and Cigarette Socket is a top choice for marine enthusiasts seeking a reliable and efficient electrical control solution. Its combination of protective features, versatile installation options, and included accessories make it a standout option for any marine electrical system. Upgrade your marine vehicle with this high-performance rocker switch panel and experience the convenience and safety it provides on your next adventure on the water.

Product Name	5 Ports On Off LED Light Toggle Waterproof Marine Rocker Switch Panel
Model	IB-P810
Input Voltage	12V-24V
Output Voltage	5V-12V
Operating Temperature	-20°C ~+60°C
Output Current	20A
Delivery Days	3-7days after payment received
Wire Connector / Wire soldering	Acceptable and with fast shipping
Accessories	Nut, Rubber Cover
