

Item name: IB-P811 QC3.0 Type C Dual USB Charger 5 Gang Rocker Switch Panel

Specification :

IB-P811 5 Ports On Off LED Light Toggle Waterproof Marine Rocker Switch Panel USB Car Power Socket with Voltmeter and Cigarette Socket

Product name: IB-P811 Marine switch panel

Voltage: DC12/24V

Current: 10A-20A

Material: ABS

IB-P811 5 Ports On Off LED Light Toggle Waterproof Marine Rocker Switch Panel USB Car Power Socket with Voltmeter and Cigarette Socket

Are you tired of dealing with multiple chargers and switches cluttering up your vehicle's dashboard? Look no further than the QC3.0 Type C Dual USB Charger 5 Gang Rocker Switch Aluminum Panel. This innovative product is designed to streamline your power and lighting needs while providing a sleek and modern look for your car, boat, RV, UTV, or camper. The panel comes with pre-wired installation and includes stainless steel screws for easy setup. With a fully functional design, it features a voltage display table, blue

LED light indicators, labeled light style switches, and a waterproof aluminum panel. The 12V charger and dual PD+ QC3.0 USB power adapter ensure that you have all the power you need on the go.

The extensive application of this panel makes it a versatile solution for a wide range of vehicles, including marine boats, RVs, trailers, buses, trucks, yachts, and pleasure boats. The DC 12-24V lighting on-off switch, power socket, and dual PD+ QC3.0 USB charger make it a convenient and environmentally friendly choice. The durable and waterproof aluminum panel ensures that it can withstand the rigors of outdoor and marine environments, making it the perfect choice for all your power and lighting needs.

In conclusion, the QC3.0 Type C Dual USB Charger 5 Gang Rocker Switch Aluminum Panel is the ultimate power solution for your vehicle. Its sleek design, extensive functionality, and wide application make it a must-have for anyone looking to streamline their power and lighting setup. Say goodbye to cluttered dashboards and hello to a more efficient and modern power solution with this innovative panel. Whether you're hitting the open road in your RV or cruising the waves in your boat, this panel has got you covered.

item	QC3.0 Type C Dual USB Charger 5 Gang Rocker Switch Panel
