

**Item name: IB-P904 Marine Boat Car 6 Gang Rocker Switch Panel**

**Specification :**

**IB-P904 Marine Boat Car 6 Gang ON-Off Ignition Waterproof Toggle Rocker Switch Panel with 12V/24V Circuit Breaker**

Output voltage :12V 20A/24V 10A

Output current/voltage :3.1A(1+2.1A)/5V

Work Temperature :-40-60 degree

working voltage:12-24v

LED Display: Blue

**IB-P904 Marine Boat Car 6 Gang ON-Off Ignition Waterproof Toggle Rocker Switch Panel with 12V/24V**

**Circuit Breaker**

.Are you in need of a reliable and versatile electrical switch panel for your marine boat or car? Look no further than the Marine Boat Car 6 Gang ON-Off Ignition Waterproof Toggle Rocker Switch Panel with 12V/24V Circuit Breaker. This high-quality switch panel is designed to meet the demands of marine and automotive electrical systems, offering a range of features to enhance functionality and safety. With 12 LED colorful voltmeter, dual USB ports, and circuit breakers, this switch panel is a comprehensive solution for controlling lights, refrigerators, vacuum cleaners, and other electrical devices.

The inclusion of circuit breakers in this switch panel is a key feature that sets it apart from standard switch panels. The circuit breakers are equipped with overload protectors of 5A, 10A, and 15A, ensuring that your electrical system is safeguarded from burnout in the event of current over peak. This added protection is essential for maintaining the longevity and reliability of your marine or car electrical system, giving you peace of mind during operation. Whether you're out on the water or hitting the road, having a robust electrical system is crucial, and this switch panel delivers on that front.

In addition to its protective features, the Marine Boat Car 6 Gang ON-Off Ignition Waterproof Toggle Rocker Switch Panel offers convenient control over various electrical components. The rocker switches allow for easy operation of lights, refrigerators, vacuum cleaners, and more, providing a user-friendly interface for managing your electrical devices. The inclusion of a colorful voltmeter and

dual USB ports further enhances the functionality of this switch panel, making it a comprehensive and practical addition to any marine or car electrical system. With its durable and waterproof design, this switch panel is built to withstand the rigors of marine and automotive environments, ensuring long-lasting performance and reliability.

Product	Marine Boat Car 6 Gang Rocker Switch Panel
Product model	IB-P904
Loop Circuit	ON-OFF
Input voltage	DC12V / 24V
Size	183mm x 119mm x 90mm (7.2"x4.7"x3.54")
Suitable for	suitable for all 12V (most cars) to 24V (larger trucks) vehicles
Product installation range	cars,off-road vehicles,buses,RVs,yachts,boats,etc.
Max. Current	20A
Max. Voltage	24V
Color	black
Product Name	6 gang switch panel
Input Voltage	DC 12-24V
Output voltage and current	12V 20A /24V 10A

Switch Light Color	B/G/R
Switch Function	ON-OFF
Material	ABS+Aluminum
Warranty	12 Months
Car Make	car boat
Output	5V3.1A/9V2A/12V1.5A
