

**Item name: IB-P905 6 Gang ON Off Rocker Switch Panel**

**Product Specification :**

**IB-P905 6 Gang ON Off Rocker Switch Panel Green Backlit 12V24V LED Digital Voltmeter Dual USB Charger Cigarette Lighter Socket Overload Protection Switch Panel For Cars RVs Boats**

Cigarette Lighter Socket

Voltmeter

Dual USB Port

Working voltage:12-24v

**IB-P905 6 Gang ON Off Rocker Switch Panel Green Backlit 12V24V LED Digital Voltmeter Dual USB Charger Cigarette Lighter Socket Overload Protection Switch Panel For Cars RVs Boats**

Cigarette Lighter Socket

Material:ABS

Working voltage:12V-24V

Output voltage:12v/20A 24V/10A

Voltmeter

Material: ABS

Working voltage:12v-28v

Voltmeter measuring range:6v-30v

Dual USB Port

Material:ABS

Working voltage:12-24v

Output current:3.1A(1A+2.1A)

Output voltage:5V

Backlit:green LED

Are you looking for a versatile and reliable switch panel kit to upgrade your vehicle's electrical system? Look no further than the 6 Gang ON Off Rocker Switch Panel. This multi-function switch panel kit includes 6 on-off 5pin red LED rocker switches, 6 circuit breakers, a 12V cigarette socket, 2.1A/5V & 1A/5V dual USB charger, and a digital voltmeter. Whether you need to control various circuits, charge your devices, or monitor voltage, this switch panel has got you covered. Its 12V/24V compatibility makes it suitable for a wide range of applications in cars, boats, trucks, yachts, and caravans.

One of the standout features of this switch panel is its durability and suitability for marine use. The marine switch panel is designed with a special rubber steel cover, a splash plate, and an anti-leakage rubber ring, making it resistant to water and corrosion. This ensures that the switch panel can withstand the harsh marine environment, providing reliable performance when you need it most. Whether you're cruising on a boat or navigating rough terrain in your off-road vehicle, this switch panel is built to handle the

elements and keep your electrical systems running smoothly.

In addition to its robust construction, the switch panel also offers overload protection, ensuring the safety of your vehicle's electrical system. With the ability to handle multiple functions and provide essential protection, this switch panel is a must-have for any vehicle enthusiast. Upgrade your car, RV, boat, or truck with the 6 Gang ON Off Rocker Switch Panel and enjoy the convenience, functionality, and peace of mind it brings to your electrical setup. With its green backlit design adding a touch of style, this switch panel is the perfect combination of form and function for all your vehicle's electrical control and charging needs.

Input Voltage	12V-24V
Product model	IB-P905
Output Voltage	5V-12V
Output Current	3.1A(1A+2.1A)
Operating Temperature	-25° C ~+60° C

Material	ABS
Terminal type	2 Pin Terminals
Illuminated or not	Yes
Led Color	Blue (or Green, Red Color)
Accessories	Nut, Rubber Cover
