The Four Push Button LED Rock Lights Touch Switch Panel for Jeep Wrangler JK/JKU 2007-2016 (Left Hand Drive Model). This cutting-edge switch panel is designed to enhance the functionality and aesthetics of your vehicle, providing a convenient and stylish way to control various lighting components. Crafted from high-quality ABS material with a sleek black finish, this switch panel is not only durable and sturdy but also adds a touch of modern elegance to your Jeep's interior.

Equipped with four marine-grade push button switches, this panel allows you to effortlessly operate your vehicle's rock lights with precision and ease. The LED light indicators, available in blue, amber, red, and green, provide clear visual cues, making it simple to identify the activated switches even in low-light conditions. The ON-OFF switch operation further ensures a user-friendly experience, allowing you to control the lighting elements with a simple touch.

This switch panel is designed to seamlessly integrate into the Jeep Wrangler JK/JKU 2007-2016 (Left Hand Drive Model), ensuring a perfect fit and easy installation. Whether you're a seasoned off-road enthusiast or simply looking to upgrade your vehicle's interior, this switch panel is the ideal choice for adding both functionality and style to your Jeep. With a working current of 20A and compatibility with 12-24V voltage, this panel is engineered to meet the demanding requirements of modern automotive applications.

In summary, our Four Push Button LED Rock Lights Touch Switch Panel is the perfect solution for enhancing the control and visual appeal of your Jeep Wrangler JK/JKU. With its durable construction, intuitive operation, and compatibility with a range of lighting

components, this switch panel is a must-have addition for any Jeep enthusiast. Elevate your driving experience and make a statement with this premium automotive accessory.
