4. Easy to install and widely used

IB-PR13 cross-border boutique car modification carbon fiber panel ignition one button start system multifunctional racing switch

This cutting-edge product is designed to elevate the performance and functionality of your racing car, providing a seamless and efficient ignition experience.

The key features of this product are truly remarkable. Firstly, the ignition switch is engineered to enhance the starting acceleration of your vehicle, significantly increasing its sensitivity and responsiveness. This means that you can expect a more agile and dynamic driving experience, with improved control and precision.

In addition, the system is equipped with a power-off switch that allows for instant and complete shutdown of the vehicle's power supply. This feature not only adds an extra layer of safety and security but also provides a convenient way to conserve energy when the car is not in use.

Designed specifically for professional racing cars, this multifunctional racing switch is a must-have for any serious racing enthusiast. Its advanced technology and high-quality construction make it a reliable and durable addition to your vehicle, capable of withstanding the demands of intense racing conditions.

Furthermore, the installation process is straightforward and hassle-free, making it accessible to a wide range of users. Whether you are a professional mechanic or a car enthusiast with a passion for DIY projects, you can easily integrate this system into your vehicle without any complications.

In conclusion, the Cross-Border Boutique Car Modification Carbon Fiber Panel Ignition One Button Start System Multifunctional Racing Switch is a game-changer in the world of car modification. Its unparalleled performance, safety features, and ease of installation make it a standout choice for anyone looking to enhance the capabilities of their racing car. Elevate your driving experience with this exceptional product and take your racing adventures to new heights.

Product name	Start System Multifunction Switch
Model	IB-PR13
Size	9.6*6.5cm
material	ABS+copper
VOLTAGE	12V
Current	400A
Led color	Red/blue/Green
Weight	303g
Electrical life	50000 Times
