

IB-SP1301 12v 24v Anderson USB Socket Panel control box

IB-SP1301-12V control box for four-wheel drive motor homes with Anderson plugs, switches, fuse boxes, durable aluminum housing products, customizable features

- 5gang rocker switch and USB car charge fuse holder form a panel.
- You can make your own DIY replacement products to form different functional panels
- The lines have been installed for easy connection
- It possesses excellent dust and rust resistance, ensuring the circuit's safety and stability unaffected by environmental factors.
- voltage: DC12-24V

IB-SP1301-12V control box for four-wheel drive motor homes with Anderson plugs, switches, fuse boxes, durable aluminum housing products, customizable features

Specification:

Rated Current: 50AMP

Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12V 20A /24V 10A

Color: Black

Material: Black powder coated laser cut aluminium

Size: 300 x 240 x 85mm

Weight: 2.25kg

Introducing our innovative 5-gang rocker switch and USB car charge fuse holder panel, designed to revolutionize your DIY projects and vehicle customization. This versatile panel combines a 5-gang rocker switch with a USB car charger fuse holder, allowing you to create your own customized functional panels for a wide range of applications.

With pre-installed lines for easy connection, this panel offers convenience and flexibility for your DIY projects. Whether you're looking to create a custom control panel for your vehicle accessories or design a unique power distribution system, this panel provides the perfect foundation for your creations.

Featuring excellent dust and rust resistance, this panel ensures the safety and stability of your circuits, even in challenging environmental conditions. Its robust construction and high-quality materials make it a reliable choice for any project, providing peace of mind that your electrical systems will remain unaffected by external factors.

Compatible with DC 12-24V, this panel is suitable for a variety of vehicles and applications, making it a versatile and practical solution for your electrical needs. Whether you're working on a car, boat, RV, or other 12-24V systems, this panel offers the functionality and durability you need.

In addition to the 5-gang rocker switch and USB car charge fuse holder, this panel can also accommodate additional components such as a voltmeter, cigarette lighter socket, and Anderson socket flush mount, allowing you to create a fully customized panel tailored to your specific requirements.

Experience the freedom to design and build your own electrical panels with our 5-gang rocker switch and USB car charge fuse holder panel. Unlock new possibilities for your DIY projects and vehicle customization with this versatile and reliable solution.

Product Name	12v 24v Anderson USB Socket Panel control box
Type	Control Box
Model Number	IB-SP1301
Size	300 x 240 x 85mm
Housing Color	Black
Led Color	Red/blue/green/white
Voltage	DC 12-24V
What You Got	How much current is needed for the socket?
