

IB-SP1302 12V DC Multifunction Control Box

IB-SP1302-New design solar control box equipped with Anderson socket, rocker switch, USB car charger, there is a DIY design for free assembly

- 1、 solar power control box
- 2、 The panel have DIY area.
- 3、 Reasonable panel wiring ensures safety
- 4、 control box suitable for 12V and 24V power system.
- 5、 Economical and durable material, good quality.

IB-SP1302-New design solar control box equipped with Anderson socket, rocker switch, USB car charger, there is a DIY design for free assembly

Specification:

Rated Current: 50AMP

Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12V 20A /24V 10A

Color: Black

Material: Black powder coated laser cut aluminium

Size: 300 x 240 x 85mm

Weight: 2.5kg

Introducing the New Style 12V Distribution Box Power Control Boxes for 4WD, Boats, and Caravans Switch Box. This innovative product is designed to provide a reliable and efficient power control solution for various applications. With its solar power control box and DIY area on the panel, users have the flexibility to customize and optimize their power system according to their specific needs. The control box is suitable for both 12V and 24V power systems, offering versatility and convenience for a wide range of users. Its reasonable panel wiring ensures safety, giving users peace of mind when it comes to managing their power supply. The economical and durable materials used in its construction guarantee a high-quality product that is built to last.

Whether you are using it for your 4WD, boat, or caravan, this power control box is designed to meet the demands of outdoor and off-grid environments. Its robust construction and reliable performance make it an essential addition to any power system setup. With the ability to handle various power requirements, this control box offers a practical and efficient solution for managing power distribution.

The New Style 12V Distribution Box Power Control Boxes for 4WD, Boats, and Caravans Switch Box is the ideal choice for those seeking a dependable and customizable power control solution. Its user-friendly design and high-quality construction make it a valuable asset for anyone looking to optimize their power system for maximum efficiency and safety.

In conclusion, this power control box offers a combination of practicality, durability, and versatility, making it a must-have for anyone in need of a reliable power distribution solution. With its innovative features and high-quality construction, it is sure to meet the needs of users in various outdoor and off-grid settings.

Product Name	12V DC Multifunction Control Box
Type	Control Box
Model Number	IB-SP1302
Size	300 x 240 x 85mm
Housing Color	Black/white
Led Color	Red/blue/green/white
Voltage	DC 12-24V
What You Got	How much current is needed for the socket?
