Specification:

Rated Current: 50AMP

Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12V 20A /24V 10A

Color: Black

Material: Black powder coated laser cut aluminium

Size: 300X240X85 mm

Weight: 2.8kg

Introducing our latest innovation in power control and distribution - the New Style 12V Distribution Box. This state-of-the-art power control box is designed to meet the needs of 4WD vehicles, boats, caravans, and DIY setups, providing a reliable and efficient solution for all your power distribution requirements.

This feature-packed equipment is equipped with three cigarette lighter sockets and two USB ports, allowing you to power multiple devices simultaneously. The inclusion of a voltmeter ensures that you can easily monitor the voltage levels, while the dual 50A quick connect plugs enable seamless connectivity. Additionally, the box features a fuse and reserved DIY area, providing flexibility and customization options for your specific needs.

The sensible wiring and bus bar binding post for positive and negative poles ensure a secure and organized setup, while the heavy-duty cables are designed to handle high current loads with ease. Safety is paramount, and the circuit safety measures incorporated into the design provide peace of mind during operation.

Crafted from laser-cut 1.5mm powder-coated aluminum, the box itself is built to withstand the rigors of outdoor and off-road use. The 2mm thick lid adds strength and durability, making it suitable for even the most demanding environments.

Whether you're setting up a canopy, van, RV, or 4WD vehicle, this power control box is the perfect companion for your electrical needs. Its versatility and robust construction make it an ideal choice for enthusiasts and professionals alike.

Experience the convenience and reliability of the New Style 12V Distribution Box and take control of your power distribution with confidence. Upgrade your setup today and enjoy the peace of mind that comes with a premium power control solution.

Product Name	12V DISTRIBUTION BOX Power Control Boxes
Type	Control Box
Model Number	IB-SP1303
Size	300X240X85 mm
Housing Color	Black/white
Led Color	Red/blue/green/white
Voltage	DC 12-24V
What You Got	How much current is needed for the socket?
