

IB-SP201 double hole Anderson series socket panel

IB-SP201 -Dual Anderson plug panels can be customized for different current combinations

- Double Anderson connector panel.
- The mounting panel can be selected in other styles, and different ampere Anderson sockets can be freely combined
- 50A/120A/175A Anderson connector for mounting into trims and panels.
- The input voltage of the product is 12-24V
- High quality

IB-SP201 -Dual Anderson plug panels can be customized for different current combinations

Specification:

Rated Current: 50/120/175AMP

Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12-24V

Color: Black

Material: Plastic

Size: 3.15 x 2.76 x 1.97 inches

Weight: 3.2 ounces

Introducing our latest innovation in power connectivity for modified cars and boats - the professional double hole Anderson series socket panel. This cutting-edge product is designed to provide a reliable and versatile power solution for a wide range of applications.

Featuring a double Anderson connector panel, this product offers the flexibility to combine different ampere Anderson sockets, allowing for customized power configurations to suit specific needs. Whether it's for a modified car, boat, or other professional applications, this panel is built to deliver exceptional performance.

The mounting panel can be selected in various styles, ensuring seamless integration into different trims and panels. With options for 50A, 120A, and 175A Anderson connectors, this panel caters to diverse power requirements with ease. Its input voltage range of 12-24V further enhances its compatibility with a variety of power sources.

Crafted with high-quality materials and precision engineering, this Anderson series socket panel is built to withstand the rigors of demanding environments. Its robust construction ensures long-lasting durability, making it a reliable choice for powering essential equipment in modified vehicles and marine vessels.

Whether you're a professional installer, automotive enthusiast, or marine industry expert, this double hole Anderson series socket panel is the ideal solution for your power connectivity needs. Its versatility, durability, and high performance make it a standout choice in the market.

Experience the convenience and reliability of our professional double hole Anderson series socket panel, and take your power connectivity to the next level. With its exceptional features and quality construction, this product is set to redefine power solutions for

modified cars, boats, and professional applications.

Product Name	double hole Anderson series socket panel
Model Number	IB-SP201
Size	3.15 x 2.76 x 1.97 inches
Housing Color	Black
What You Got	How much current is needed for the socket?
