

IB-SP302 3 position Anderson combination charging panel 50A,600V

IB-SP302-The 3-position Anderson socket panel combination is easy to install and has safe customer compatible connectors. The material is strong and non-deformable, and is designed for use on boats and vehicles

- Applicable to the installation and use of high-end large-scale transportation tools such as ships, yachts, motorhomes and buses.
- Item Type: Flush Mount for Anderson Plug Recharge Panel
- Special Features: for Anderson Plug
- A flush mounting bracket with a recessed 50A for Anderson connector for mounting into trims and panels.
- The input voltage of the product is 12-24V, and all trucks of 12-24V can be installed and used, and the scope of use is very wide.

IB-SP302-The 3-position Anderson socket panel combination is easy to install and has safe customer compatible connectors. The material is strong and non-deformable, and is designed for use on boats and vehicles

Specification:

Rated Current: 50/120/175AMP

Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12-24V

Color: Black

Material: Plastic

Size: 120*60*50cm

Weight: 102G

Introducing our latest innovation in high-end transportation technology - the 3-position Anderson combination charging panel 50A, 600V. This flush mount for Anderson Plug recharge panel is designed for the installation and use of high-end large-scale transportation tools such as ships, yachts, motorhomes, and buses.

This flush mounting bracket features a recessed 50A Anderson connector, making it ideal for mounting into trims and panels. The special features of this product cater specifically to the needs of Anderson Plug users, ensuring a seamless and efficient charging experience.

With an input voltage of 12-24V, this charging panel is compatible with a wide range of vehicles, including trucks operating within the 12-24V range. This versatility makes it a practical and convenient solution for various transportation applications.

The 3-position Anderson combination charging panel 50A, 600V offers a reliable and high-performance charging solution for large-scale transportation vehicles. Its robust design and compatibility with a range of vehicles make it a valuable addition to any transportation setup.

Whether you're looking to upgrade the charging capabilities of your ship, yacht, motorhome, or bus, this flush mount charging panel is the perfect choice. Its ease of installation and wide scope of use make it a must-have for anyone seeking a dependable and efficient charging solution for their high-end transportation tools.

Experience the convenience and reliability of the 3-position Anderson combination charging panel 50A, 600V and take your transportation charging capabilities to the next level.
