Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12-24V

Color: Black

Material: Plastic

Size: 158*43mm

Weight: 102G

Introducing our 4-in-1 car charger with a 12-24V marine switch and 50A Anderson plug for modified cars. This innovative product is designed to meet the needs of high-end large-scale transportation tools, such as ships, yachts, motorhomes, and buses.

Crafted from high-quality materials, this car charger is durable and built to last. It is suitable for use with the Anderson Power SB50 Series connector, making it a versatile and practical choice for a wide range of applications. The inset type design allows for easy mounting into your dashboard, panel, or chassis, providing a seamless and integrated look.

With a voltage of 50A and a current of DC 12-24V, this car charger is capable of delivering reliable and efficient power to your devices. Whether you're on the road or out at sea, you can count on this charger to keep your devices powered up and ready to go. The 4-in-1 design of this car charger sets it apart from the competition. It combines the functionality of a car charger, a marine switch, and a 50A Anderson plug, offering a comprehensive solution for your charging needs. This makes it an ideal choice for modified cars and other customized vehicles, providing a convenient and efficient way to power your devices while on the go.

In conclusion, our 4-in-1 car charger with a 12-24V marine switch and 50A Anderson plug is a must-have accessory for anyone in need of reliable and versatile charging solutions. Its high-quality construction, versatile design, and powerful performance make it the perfect choice for a wide range of applications. Whether you're a professional driver, a boat enthusiast, or a road trip adventurer, this car charger has got you covered.
