

IB-SP401 Modified car 12V Anderson socket combination panel

IB-SP401-New assembly panel includes Anderson socket, cigarette lighter, USB car charger, boat switch, can be freely combined and customized, fully functional dedicated to truck equipment installation

- Suitable for Anderson Power SB50 Series connector.
- Inset type design, can mounting into your dashboard, panel or chassis.
- Voltage: 50A; Current: DC 12-24V.
- Made of high quality materials, durable
- Applicable to the installation and use of high-end large-scale transportation tools, such as ships, yachts, motorhomes and buses.

IB-SP401-New assembly panel includes Anderson socket, cigarette lighter, USB car charger, boat switch, can be freely combined and customized, fully functional dedicated to truck equipment installation

Specification:

Rated Current: 50AMP

Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12-24V

Color: Black

Material: Plastic

Size: 609.6*103.63*115.84mm

Weight: 400G

Are you looking for a reliable and versatile power solution for your modified car, boat, or RV? Look no further than our latest product - the Modified Car 12V Take-up Base with Color Screen Voltmeter and Anderson Socket Combination Panel. This innovative product is designed to meet the power needs of high-end large-scale transportation tools, such as ships, yachts, motorhomes, and buses.

The Modified Car 12V Take-up Base is suitable for Anderson Power SB50 Series connectors, making it a perfect fit for your power needs. Its inset type design allows for easy mounting into your dashboard, panel, or chassis, providing a seamless and professional look. With a voltage rating of 50A and a current rating of DC 12-24V, this power solution is capable of handling your most demanding power requirements.

Crafted from high-quality materials, this combination panel is built to last. Its durable construction ensures that it can withstand the rigors of daily use, making it a reliable and long-lasting addition to your vehicle or vessel. The color screen voltmeter provides real-time voltage monitoring, giving you peace of mind and allowing you to keep a close eye on your power system's performance.

Whether you're a car enthusiast, a boat owner, or an RV traveler, this Anderson Socket Combination Panel is the perfect choice for your power needs. Its versatility and reliability make it an essential addition to any high-end transportation tool. Upgrade your power system today with our Modified Car 12V Take-up Base with Color Screen Voltmeter and Anderson Socket Combination Panel, and experience the difference it can make in your power management.

Product Name	Modified car 12V Anderson socket combination panel
Type	4 Position
Model Number	IB-SP401
Size	609.6*103.63*115.84mm
Housing Color	Black
Led Color	Blue
Voltage	DC 12-24V
What You Got	How much current is needed for the socket?
