

IB-SP402 4-in-1 12-24V Anderson marine car charger Panel

IB-SP402-High quality waterproof rocker switch with Anderson socket 12V ON-OFF panel combination for easy on-board installation

- waterproof marine switch+Anderson connector.
- Can be installed horizontally or vertically
- DC12-24V
- The material is durable and of good quality
- Can customize different light color, function switch

IB-SP402-High quality waterproof rocker switch with Anderson socket 12V ON-OFF panel combination for easy on-board installation

Specification:

Rated Current: 50AMP

Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12-24V

Color: Black

Material: Plastic

Size: 130*60*60mm

Weight: 200G

Introducing our latest innovation in car accessories - the 4-in-1 car charger with a 12-24V marine switch and 50A Anderson plug for modified cars. This versatile and high-quality product is designed to meet the diverse needs of car enthusiasts and professionals alike.

The waterproof marine switch and Anderson connector make this product ideal for use in various outdoor and marine environments. Whether you're on a rugged off-road adventure or navigating the open waters, this car charger is built to withstand the elements and deliver reliable performance.

One of the key features of this product is its flexibility in installation. It can be easily installed horizontally or vertically, allowing for seamless integration into different vehicle setups. The DC12-24V compatibility ensures that it can be used with a wide range of vehicles, making it a practical and convenient choice for car owners.

Durability and quality are at the core of this product's design. The materials used are of the highest standard, ensuring long-lasting performance and reliability. This makes it a valuable addition to any car modification or upgrade project.

Furthermore, we understand that personalization is important to our customers. That's why we offer the option to customize the light color and function switch according to individual preferences. This level of customization ensures that the product not only meets functional needs but also aligns with personal style and taste.

In conclusion, the 4-in-1 car charger with a 12-24V marine switch and 50A Anderson plug is a versatile, durable, and customizable solution for car enthusiasts and professionals. Its robust design, flexible installation options, and compatibility with various vehicles make it a must-have accessory for anyone looking to enhance their car's functionality and performance.
