Specification:

Rated Current: 50AMP

Voltage: 600V

Operating Temperature: -20° to 105°

Rated: DC 12-24V

Color: Black

Material: Plastic

Size: 148*105*78mm

Weight: 386G

Introducing our latest innovation in power management and convenience - the 12V/24V Anderson Socket Flush Mount with USB Charger, Voltmeter, and Cigarette Lighter Socket. This versatile panel is designed to meet all your power needs, whether you're on the road, at the campsite, or in your workshop.

With its double USB ports, voltmeter, and Anderson plug, this panel offers complete functionality in a compact and easy-to-install package. The dual USB ports allow for convenient charging of your electronic devices, while the voltmeter provides real-time monitoring of your power usage. The Anderson plug ensures a secure and reliable connection for your power needs.

One of the key features of this panel is its flexibility in mounting. It can be installed in a vertical or horizontal position, making it suitable for a wide range of applications. Whether you need to mount it on a dashboard, in a control panel, or on a wall, this panel can be easily accommodated.

Operating at DC 12-24V and 50A, this panel is capable of handling a variety of power requirements, making it ideal for use in vehicles, boats, RVs, and off-grid systems. The addition of a cigarette lighter socket further enhances its versatility, allowing you to power additional devices or accessories with ease.

In summary, our 12V/24V Anderson Socket Flush Mount with USB Charger, Voltmeter, and Cigarette Lighter Socket offers a complete power management solution in a single, convenient package. Its easy installation, complete functionality, and flexible

mounting options make it a must-have for anyone in need of reliable and versatile power management. Experience the convenience and reliability of this innovative panel for yourself and take your power management to the next level.

Product Name	12v 24v Anderson Socket Flush Mount
Type	6 Position
Model Number	IB-SP601
Size	148*105*78mm
Housing Color	Black
Led Color	Blue
Voltage	DC 12-24V
What You Got	How much current is needed for the socket?
