##### WNB009 DC Battery Switch

###### DESCRIPTION:

WNB009 RV Battery Switch DC Battery Switch 50A/100A/200A/300A Power Control Switch

Product features:

1. Insulation flame retardant, waterproof protection
2. Brass terminals, strong conductivity, oxidation resistance, and corrosion resistance
3. Nylon glass fiber, strong toughness and durability
4. Suitable for various modes of transportation

### **WNB009 RV Battery Switch DC Battery Switch 50A/100A/200A/300A Power Control Switch**

The ultimate power control switch designed to meet the diverse needs of your transportation modes. With a range of options including 50A, 100A, 200A, and 300A, this switch offers unparalleled performance and reliability.

Crafted with the highest quality materials, our battery switch is built to withstand the toughest conditions. The insulation is flame retardant and provides waterproof protection, ensuring the safety and longevity of the switch. The brass terminals offer strong conductivity, oxidation resistance, and corrosion resistance, guaranteeing a stable and efficient power flow. Additionally, the switch is constructed with nylon glass fiber, providing exceptional toughness and durability, making it suitable for various modes of transportation.

Whether you're using it for your RV, boat, or other vehicles, our battery switch is designed to deliver consistent and reliable performance. Its versatility and robust construction make it an ideal choice for any transportation application. You can trust that our switch will provide the power control you need, no matter the conditions.

With safety and quality at the forefront of its design, our battery switch offers peace of mind and confidence in your power management. It's the perfect solution for anyone seeking a dependable and long-lasting power control switch for their vehicles.

In conclusion, our RV Battery Switch DC Battery Switch is the ultimate choice for those who demand the best in power control. Its superior features, including insulation flame retardant, brass terminals,

and nylon glass fiber construction, make it the ideal solution for a wide range of transportation needs. Trust in the reliability and performance of our battery switch to keep your vehicles powered and running smoothly.

Product name	WNB009 DC Battery Switch
Model	WNB009
material	Plastic and brass
Size	6.8*5.8*5.1cm
current	50-300A
Voltage	32V
temperature	-30°C-60°C
Product Life	1000 times
Weight	27-148g
