Introduction:

the 12V 4-pole add-on light push button switch with LED background indicator lights. This compact switch, measuring 33*23mm, is designed to provide seamless control over various lighting applications in your vehicle. Whether you're looking to add fog lights, LED light bars, daytime running lights, or strobe lights, this switch is the perfect solution for customizing your vehicle's lighting system.

Crafted from high-quality ABS materials, this fog lamp switch is built to withstand the rigors of daily use while maintaining its sleek appearance. The LED background indicator lights not only add a stylish touch to your vehicle's interior but also provide clear visual feedback, indicating the status of the connected lights.

One of the standout features of this switch is its user-friendly design, which includes a push button for effortless operation. The addition of customizable logo options allows you to personalize the switch to match your vehicle's branding or your own unique style.

We understand the importance of safety and reliability when it comes to automotive accessories, which is why our push button switch has undergone extensive quality and safety testing. This ensures that it meets the highest standards for performance and durability, giving you peace of mind while on the road.

Whether you're a car enthusiast looking to enhance your vehicle's lighting setup or a professional in the automotive industry, our 12V 4-pole add-on light push button switch with LED background indicator lights is the ideal choice for adding functionality and style to your vehicle. With its small size and versatile applications, this switch is compatible with various vehicle models, including Toyota, making it a must-have accessory for any automotive lighting project. Elevate your driving experience with our innovative push button switch and take control of your vehicle's lighting with ease and style.
