### WNB001 Automotive Battery Switch

#### DESCRIPTION:

WNB001 Automotive Battery Switch DC Switch 50A/100A Protection Power Switch

Product features:

1. High quality products, sturdy and durable
2. Thread installation, simple wiring
3. Waterproof cover design can better protect the keyhole
4. Nylon glass fiber, with strong toughness and high durability

### **WNB001 Automotive Battery Switch DC Switch 50A/100A Protection Power Switch**

This battery switch is designed to provide a sturdy and durable performance, ensuring long-lasting use and peace of mind for all your power management needs.

With its thread installation and simple wiring, this battery switch offers a hassle-free setup process, making it suitable for both professional installers and DIY enthusiasts. The waterproof cover design adds an extra layer of protection to the keyhole, safeguarding the switch from environmental elements and ensuring its functionality in various conditions.

Constructed with nylon glass fiber, this battery switch exhibits exceptional toughness and durability, capable of withstanding the rigors of automotive applications. Whether you're using it in a car, truck, boat, or other vehicles, you can rely on its robust build to deliver consistent performance.

The 50A/100A protection power switch feature further enhances the functionality of this product, allowing for safe and efficient power management. This makes it an ideal choice for controlling the flow of electricity in your vehicle, providing added security and control over your power systems.

Whether you're looking to upgrade your vehicle's power management system or replace an existing battery switch, our Automotive Battery Switch DC Switch 50A/100A Protection Power Switch offers a dependable solution that meets the highest standards of quality and performance.

Trust in the reliability and effectiveness of our battery switch to keep your vehicle powered and protected. With its high-quality construction, easy installation, and advanced features, it's the perfect choice for any automotive power management needs. Experience the difference with our Automotive Battery Switch DC Switch 50A/100A Protection Power Switch and take control of your vehicle's power distribution with confidence.

Product name	WNB001 Automotive Battery Switch
Model	WNB001
material	Plastic and brass
Size	5.5*4.5*6.5cm
current	75A
Vlotage	50V
Operation temperature	-30°C-60°C
Product Life	1000 times
Weight	40g
