WNB008 One click start switch

DESCRIPTION:

WNB008 New Car Yacht Racing Switch High Current Main Power Cut off Switch Safety Switch Power Cut off Manufacturer

Product features:

1. Use sealing rings for good sealing performance
2. Car ignition switch, dedicated to sports cars, can control the ignition of the car
3. Starting acceleration is more agile, which can increase the sensitivity of the car
4. Widely used as a switch for various electrical equipment added inside and outside the vehicle

WNB008 New Car Yacht Racing Switch High Current Main Power Cut off Switch Safety Switch Power Cut off Manufacturer

Our new Car Yacht Racing Switch is designed to meet the high demands of sports car enthusiasts and racing professionals. With its high current main power cut off feature, this safety switch provides reliable and efficient control over the ignition and power supply of your vehicle.

Featuring sealing rings for superior sealing performance, this switch ensures the safety and security of your vehicle's electrical system. Its dedicated design for sports cars allows for precise control over the ignition, resulting in a more agile starting acceleration and increased sensitivity, ultimately enhancing the overall performance of the vehicle.

In addition to its application in sports cars, this switch is also widely used as a main power cut off for various electrical equipment both inside and outside the vehicle. Its versatility and high current handling capacity make it an essential component for any racing or high-performance vehicle.

Manufactured with the highest quality standards, our Car Yacht Racing Switch is built to withstand the rigors of racing and high-speed driving. Its robust construction and reliable performance make it a trusted choice for professional racers and automotive enthusiasts alike.

Whether you're looking to upgrade your sports car's ignition system or seeking a dependable power cut off solution for your electrical equipment, our Car Yacht Racing Switch is the ideal choice. Experience the precision, reliability, and performance that this switch has to offer, and take your driving experience to the next level.

Choose the Car Yacht Racing Switch for unparalleled control, safety, and performance in your sports car or racing vehicle.

Product name	WNB008 One click start switch
Model	WNB008
material	Aluminum alloys and plastics
Size	63.8*62.5*104mm
current	250A
Voltage	60V
temperature	-40℃-60℃
package	Black paper box
Weight	422g
