### WNB014 intelligent dual battery isolator

#### DESCRIPTION:

WNB014 manufacturer provides 140A12V dual battery intelligent isolator for vehicle and ship modification, automatic charging

Product features:

1. Adopting customized packaging to provide comprehensive protection for the product
2. Built in LED indicator light, reinforced nylon shell
3. Fixed screws and copper joints for more convenient use
4. Black and red power supply grounding wire, resin elastomer cable, not disconnected, strong toughness, resistant to high and low temperatures

### **WNB014 manufacturer provides 140A12V dual battery intelligent isolator for vehicle and ship modification, automatic charging**

This intelligent isolator offers automatic charging and a range of features that make it a reliable and convenient solution for managing dual battery systems.

The product comes in customized packaging that provides comprehensive protection, ensuring that it arrives in perfect condition. It is equipped with a built-in LED indicator light and a reinforced nylon shell, offering durability and reliability in various operating conditions.

Installation is made easy with the inclusion of fixed screws and copper joints, allowing for a more convenient and secure setup. The isolator also features black and red power supply grounding wires, along with resin elastomer cables that are designed to withstand high and low temperatures, ensuring a strong and reliable connection.

With a 140A12V capacity, this intelligent isolator is capable of efficiently managing the charging and discharging of dual battery systems, providing peace of mind and optimal performance. Whether used in vehicles or ships, this isolator is designed to meet the demands of diverse applications, offering a versatile solution for power management.

In conclusion, the 140A12V Dual Battery Intelligent Isolator is a high-quality, reliable, and convenient solution for managing dual battery systems in vehicles and ships. With its advanced features, durable construction, and ease of installation, it is a product that meets the needs of professionals and enthusiasts alike, providing efficient and effective power management for a wide range of applications.

Product name	WNB014 intelligent dual battery isolator
Model	WNB014
material	Plastic and brass
Size	53*68*68mm
current	140A
Voltage	12V
temperature	-40°C ~ 85°C
IP GRADE	IP67
Weight	1868g
