WND1017 busbar terminal block

DESCRIPTION:

WND1017 RV Yacht Power Battery Bus Terminal 48V80A Terminal One Split Two Terminal Stainless Steel Studs

Product features:

1. Screw fixation
2. Base design for convenient wiring
3. Fiberglass material, not easily oxidized
4. Voltage and current selectable, maximum 48V

WND1017 RV Yacht Power Battery Bus Terminal 48V80A Terminal One Split Two Terminal Stainless Steel Studs

This terminal is designed to provide efficient and secure connections for your power supply system, ensuring optimal performance and safety.

The RV Yacht Power Battery Bus Terminal features a robust construction with stainless steel studs, ensuring durability and resistance to corrosion. The screw fixation design allows for a secure and stable connection, while the base design provides convenience for wiring, making installation and maintenance hassle-free.

One of the key features of this bus terminal is its use of fiberglass material, which offers excellent insulation properties and resistance to oxidation. This ensures long-term reliability and performance, even in demanding environments. Additionally, the terminal is capable of handling voltage and current up to 48V, providing flexibility and compatibility with a wide range of power systems.

Whether you are outfitting your RV, yacht, or bus with a power distribution system, our bus terminal is the ideal choice for ensuring efficient and reliable power connections. Its compact and versatile design makes it suitable for various applications, and its high-quality construction guarantees long-term performance and durability.

In conclusion, the RV Yacht Power Battery Bus Terminal is a dependable and efficient solution for your power distribution needs. With its durable construction, convenient design, and high-performance capabilities, it is the perfect choice for ensuring secure and reliable power

connections in your vehicle or marine vessel. Trust in the quality and reliability of our bus terminal to meet your power distribution requirements with ease and confidence.

Product name	WND1017 busbar terminal block
Model	WND1017
Housing Color	Red/Black
material quality	red copper
current	400A
Vlotage	48V
Application area	RVs and yachts
interface type	Wire
Weight	150g
